for Summer Session.
- May 19-20-21, Tuesday, Wednesday, Thursday —
Final Examinations.
- May 24, Sunday — Baccalaureate Sermon.
- May 25, Monday — Commencement Exercises.

THE PRESIDENT'S MESSAGE

The professors, as usual, were discussing the purpose of education—the end in view. One thought it to be a matter of making the proper adjustment to one's environment. Another thought the aim of all education was to be, rather than to do, something. A third felt that a Christian college should attempt to give all men and women a Christian outlook. A fourth that it should concern itself with knowledge, with the truth, where it may be found, for great character comes as a result of the search for truth. And before the discussion ended, morals, religion, health, economics, social behavior, home life, and citizenship were brought into the conversation.

To me, this is a healthy approach to the question of what constitutes a good education. It shows that no narrow answer is satisfactory to learned people. They believe in the education of the whole man. They know there is no such being as the economic man, the social man, the religious man, to the exclusion of other phases of a well-rounded person.

Bethune-Cookman College is dedicated to something more than giving people knowledge alone. Its program includes spiritual ideals, character building, health in mind and body. It believes in life-centered activities and urges its students to plough themselves back into their local communities or to carry forward in the needy centers of the world. In other words, each student should have a sense of mission when he is well educated.

An educated person is socially responsible, critical of his times, adventuresome in his profession, creative in the moral and spiritual realm, a lover of that trinity of values — truth, beauty and goodness.

To this end the program is planned to emphasize the following:

1. The realization of Christian character.
2. The acquisition and maintenance of good health.
3. The achievement of sound scholarship.
4. The encouragement of an experimental point of view.
5. The preparation for democratic citizenship.
6. The worthy use of leisure time.
7. The gaining of a foundation for one's vocation.

To this end we invite the cooperation and support of all lovers of learning.

RICHARD V. MOORE, President

 B. S. Bethune-Cookman College.

PURPOSE

The purpose of the College is to serve the needs and interests of its student and clientele in such a manner as to enable them to increasingly recognize, face and solve personal-social problems; to provide optimum opportunity for the development of personal potentialities in terms of each individual's unique personality and possible contribution to a democratic society, with special emphasis on training of the head, hand and heart. More specifically, the College aims to help students educate themselves through a program of personal self-activity.

The program is designed to provide maximum opportunity for the student to develop:

1. A sound body, mentally alert and emotionally adjusted.
2. A well-balanced integrated personality.
3. An intelligent consciousness and understanding of social problems and a desire to contribute to their solution.
4. Vocational competency to assist him in successfully pursuing a given vocation.
5. An understanding and appreciation of the cultural and scientific achievements of a man and how he utilizes and controls the natural environment for his individual and social needs.
6. Effective work habits, study skills, broad and accurate scholarship, desirable attitudes and high ideals.
7. An intelligent use of leisure time through participation in a broad program of recreational activities.

HISTORY

Bethune-Cookman College evolved from merging of two Florida educational institutions—Cookman Institute, Jacksonville, Florida and the Daytona Normal and Industrial Institute for Girls at Daytona Beach, Florida.

Cookman Institute was founded in 1872 by Reverend D. B. S. Darnell. It was the first institution for the higher education of Negroes founded in the state of Florida. During the half-century of its service in Jacksonville it maintained uniformly high standards of moral, spiritual and intellectual training. Ideals of high scholarship and Christian character gave the Institute a definite and respected place in the hearts of the people of Florida.

The Daytona Normal and Industrial Institute was founded in 1904 by Mary McLeod Bethune. This institution was founded on faith and survived during its early years as a result of great struggle and hardship. Its initial purpose was to provide industrial and literary training on the elementary and high school levels to girls only. The influence and service of this unique school grew; its plant was expanded and through contact and activities of its dynamic founder, it became nationally known within twenty years of its establishment.

Cookman Institute and the Daytona Normal and Industrial Institute were merged in 1923, and the school became co-educational. Junior College curriculum was initiated, and for thirteen years the school conducted the dual program of high school and junior college work. In 1939 the high school department was discontinued, and the entire emphasis was placed on the junior college work.

During the period from 1939 to 1941 particular stress was placed on the improvement of the curriculum and the strengthening of the teacher-education program.

In 1941, in order to meet the need so apparent in the state, Bethune-Cookman College expanded the Teacher-Education curriculum to the four-year level, offering the degree of Bachelor of Science in Elementary Education. This service was undertaken in the fall of the scholastic year 1941-42 and degrees were conferred upon the first group of four-year graduates in May, 1943.

On December 15, 1942, the founder, Dr. Mary McLeod Bethune retired, becoming President-Emeritus and James A. Colston was elected to succeed her.

During President Colston's administration, the institution became, in 1946, a Senior College accredited by the State Department of Education and the Southern Association of Colleges and Secondary Schools. Following the resignation of President Colston in May, 1946, William H. Hale became Administrative Dean and served in this capacity until September 1 of the same year. At that time Mrs. Bethune resumed the Presidency and Charlotte L. Ford CLark became Dean-Registrar. On June 1, 1947 Richard V. Moore was appointed by the Board of Trustees as President and William DuBose was appointed Registrar.

CURTIS HALL
Dormitory for Women

WHITE HALL

COOKMAN HALL

THE COLLEGE

BETHUNE-COOKMAN COLLEGE IS AN INDEPENDENT CHURCH-RELATED INSTITUTION

Due to limited dormitory facilities the enrollment must be limited to a relatively small number of students. It is necessary, therefore, that students be selected for entrance on the basis of their ability, their desires to become leaders, and/or their interest in obtaining a superior type of training.

"Enter to Learn"

LOCATION

The College is located at the corner of Second Avenue and McLeod Street, within two blocks of business centers, churches, and the theatre. The shopping centers of Daytona Beach are within a half mile of the College. The College is unique in the combination of location and educational advantages it offers. Located on the East Coast, the College has access to forests, lakes, the Atlantic Ocean, unique geological formations, ruins of the earliest Indian culture—all the resources necessary for invigorating activity and serious study.

EQUIPMENT

The College campus and grounds consist of 169 acres of land, of which 12 acres is the immediate campus; 20 acres, the instructional farm land used by the Agriculture Department, and 137 acres of outlying farm and supply land.

BUILDINGS

THE ADMINISTRATION BUILDING, WHITE HALL, a two-story brick building, contains classrooms, laboratories of the Home Economics Department, the Department of Business Education, Business Office, and the Offices of the President, Dean, Registrar, and Director of Public Relations. Another section of this building is the College Auditorium with a seating capacity of 700 persons. This Auditorium is used not only for campus activities but by the community also.

The Home Economics Department, consisting of the foods classrooms and laboratories, practice dining rooms, office lecture and conference rooms, is also housed in White Hall.

HARRISON RHODES MEMORIAL LIBRARY — (See Library under "SERVICES TO STUDENTS").

THE SCIENCE HALL, a two-story fireproof structure erected in 1934 as a result of a gift from the General Education Board, houses the Departments of Biology, Chemistry, Physics, and Mathematics. The estimated value of the apparatus and other equipment is \$25,000.

THE CRAFTS BUILDING—a one-story structure contains a laboratory and equipment for public school art, handicraft, weaving and basketry.

THE T. A. ADAMS INFIRMARY provides for the care of all minor cases of illness. A college physician and a registered nurse afford services to all who need medical attention.

THE CYNTHIA MARVIN RANSLOW LODGE, the dormitory for faculty women, is a two-story fireproof structure erected in 1948 as a result of a gift from Mrs. Cynthia Marvin Ranslow.

7 THE NEW FAITH HALL, erected in 1935, stands on the site made sacred by the Founder who placed her first building there and named it FAITH after the kind of experience which had brought her that first venture in housing the school. In this building is located the spacious new and inviting dining room, cafeteria, the kitchen and bake shop—all well ventilated and equipped with labor-saving devices. Adequate refrigeration and store rooms are important features provided. The seating capacity of the dining room is 500 persons.

8 THE LOG CABIN CAFETERIA, a one-story structure, erected in 1935 by the NYA students, affords not only cafeteria services but recreational activities as well.

9 THE KEYSER LABORATORY SCHOOL, a two - story frame building, serves as a laboratory for the Elementary Education Department. It houses the first six grades, a small cafeteria, a central library, and a first-aid room.

10 COOKMAN HALL, a three - story dormitory for men is equipped with modern conveniences. Modern furniture and bathing facilities provide the comforts which make the dormitory livable and homelike.

11 CURTISS HALL, a three-story brick structure, is modernly equipped for housing women students. It also contains offices for the Counselor of Women and guest rooms for visitors. Modern furniture, tastefully appointed provides the students with necessary comforts.

12 TRAILSEND, the President's residence, is a two - story structure, comfortable in all respects.

13 WHITNEY COTTAGE, a replica of the President's home, is the Home Economics Management House.

14 THE RETREAT is the home of the Founder and President-Emeritus and is a place where visitors enjoy going because it is the appointed home of the personality who made her dreams come true on these sacred grounds.

15 THE ANNEX, a group of buildings containing additional classrooms, a recreation wing and offices.

16 The LAUNDRY is a one-story brick building in which there is the necessary equipment for the teaching of laundering. The work for the students, faculty, and campus in general is done here under expert supervision. The building is equipped with high motored mangles and boilers, pressers, electric irons, boards, and set-up for simple dyeing and cleaning.

17 THE VOCATIONAL TRAINING SCHOOL, a spacious brick building on the west end of the campus, contains vocational shops where trades are taught. Our students have access to the finest equipment available.

18 THE CARPENTRY AND REPAIR SHOP, a two-story frame structure, houses facilities for the upkeep of buildings and grounds and headquarters for the Director of Agriculture and the Superintendent of Buildings and grounds.

19 THE FARM TOOL SHED, a one-story structure, 20 by 30 feet, is used for storing tools and fertilizers.

20 HORSE BARN, a two-story structure, 30 by 90 feet, contains two floors. The first floor furnishes space for 20 individual stalls, horses and feed room. The second floor is used for storing hay.

21 POULTRY DIVISION. There are 20 poultry houses and yards which cover a space of two acres of land, including laying houses, brooders, incubators and battery for experimental and instructional purposes as well as food supply.

22 FARM SHOP BUILDING, a one-story frame building, 20 by 30 feet, is well equipped for carrying out farm activities.

23 FARROWING HOUSES and other small farm sheds complete the barn.

24 BETHUNE MANOR, veterans' housing unit, is composed of 58 family dwellings and 54 dormitory units. The project which was completed in December, 1946, is made up of one, two, and three bedroom units with furnished kitchens, showers, and modern conveniences for families and dormitory rooms housing two or three male students.

25. Music Hall

26. Physical Ed Building

THE PROGRAM

BETHUNE-COOKMAN COLLEGE is an institution of personality and distinction where individualized instruction and counseling are offered each student. This includes both his scholastic and his personal problems.

"Depart to Serve"

THE STRUCTURE

The program is designed to translate in a concrete and tangible manner the purpose of the College into a way of life and living. That purpose is to help the student develop an integrated personality, to build his life roundedly and symmetrically.

Education in its broadest sense, the production of useful changes, is the objective around which every function of the College is organized. Development of the student according to his individual capabilities is, therefore, the guiding motive. To achieve this objective the College has formulated and works within the following departments:

TEACHER TRAINING

Work in this department is designated to prepare students for teaching in elementary and high schools.

VOCATIONAL TRAINING

Work in this department has a two-fold emphasis, to prepare students for work in industry and to give them the training necessary for a successful career in the vocations.

BUSINESS ADMINISTRATION

Work in this department is designed to prepare students for jobs in industry, and for the successful manipulation or administration of a business.

EDUCATION FOR VETERANS

There are two classifications of veterans attending classes at Bethune-Cookman College: the veteran in training under the Vocational Rehabilitation program and the veteran training under the "Educational and Training" sections of the "G. I. Bill of Rights". The necessary requirements for qualification under these programs are stated below.

Eligible veterans are those who meet the four following requirements:

1. That the person must have been in active military or naval service anytime after December 6, 1941.
2. That he or she must be honorably discharged from active service.
3. That he or she must have a disability incurred in or aggravated by such service for which pension is payable under laws administered by the Veterans' Administra-

tion, or would be but for the receipt of retirement pay, and

4. That he or she must be in need of vocational rehabilitation to overcome the handicap of such disability.

The filing of Application for Pension, V. A. Form 526, will initiate a determination as to the presence or absence of a pensionable disability producing a vocational handicap. If a vocational handicap is present, the veteran will be advised that he or she may make application for vocational training.

Maintenance and Support During Training and for two months after employability has been determined will be provided through increased pension. A single person will receive a pension at the rate of \$80.00 a month; a married person \$90.00 a month, with \$5.00 a month for each dependent child and an additional allotment in the amount of \$10.00 a month for each dependent parent.

Loans not exceeding \$100.00 may be made to trainees commencing or undertaking rehabilitation.

G. I. BILL OF RIGHTS—PUBLIC LAW 346.

Educational aid for veterans is available from the Veterans Administration, provided: (1) you were discharged under conditions other than dishonorable; (2) you served 90 days or more (not counting the time in Army Specialized Training Program or Navy College Training Program, which course was a continuation of a civilian course and which was pursued to completion, or as a cadet or midshipman in a Service Academy) or were discharged or released from service because of an actual service incurred injury or disability; and (3) you start such education not later than two years after discharge or end of war (whichever date is later.)

Length of Eligibility Time: One year (or its equivalent in part-study). If you complete these courses (except refresher or retraining courses) satisfactorily, you will be entitled to additional education or training not to exceed the length of time you spent in active service after September 16, 1950, (not including ASTP or Navy college program). No course of education or training shall exceed four (4) years.

Note: - ALL VETERANS MUST BEGIN TRAINING BEFORE JULY 25, 1951.

Types of Courses: You may select your own course at any educational or training institution which accepts you as qualified to undertake study, provided the institution is on the list approved by the Veterans' Administration.

Expenses Paid: The Veterans' Administration will pay to the educational or training institution the customary cost of tuition, and such laboratory, library, infirmary, and similar payments as are customarily charged, and pay for books, supplies, equipment, and other such necessary expenses (exclusive of board, lodging, other expenses, and travel) as are required.

You may also want to apply for school or college credit for what you learned in the service. For information on this subject and an application blank, write to:

Washington 25, D. C.

Bethune-Cookman is happy to make available its total facilities to veterans who desire to increase their training as a means of being better prepared to make their contribution on the home front.

Courses leading to the Bachelor of Science Degree in Elementary Education, Secondary Education, Home Economics, Training in Automobile Mechanics, Carpentry, Electricity, Tailoring, Machine Shop, Radio, Shoe Repair, Industrial Cookery are provided. Vocational training courses are two years in length.

To obtain admission to the College:

A. Fill out application for admission blank and mail to the Registrar's Office.

B. Arrange to have a transcript of your school record sent directly from the school to the Office of Admission.

C. Take the scholastic aptitude test. (Students who transfer 28 college credits or more are not required to take this

test except in special cases as determined by the Office of Admission.) This requirement should be met as soon as possible.

D. Applicant must have three letters of recommendation.

To establish eligibility for training:

A. If you live in the vicinity of Volusia County:

1. Get a photostatic copy of your discharge or certificate of service. (Officers who have a cadet or enlisted discharge should get copies of that also.)
2. Take the photostatic copy to a training Officer of the Veterans' Administration and file an application for a "Certificate of Eligibility."

B. If you do not live in the vicinity of Volusia County, consult with the nearest Office of Veterans' Administration.

Note: All veterans are urged to apply for their "Certificate of Eligibility" as early as possible, since it takes time to get the Certificate once one is applied for. (If you do not receive your "Certificate of Eligibility" before school begins, arrangements can be made whereby a veteran may deposit a sufficient amount of money to cover initial fees and expenses and thus be able to start school on time.)

To obtain credit for service training:

File your record of Service with the Office of the Registrar. An evaluation of all training courses offered in all branches of the service has been made by the American Council on Education. Most colleges and universities follow the recommendations of this body in granting credit for service training. The evaluation of service training will not be made until the student is eligible for regular standing.

For general information:

Concerning offerings of the college, advice concerning the choice of a major field of study or information as to curriculum content, etc., consult with the Office of the Registrar.

For specific and technical information:

Concerning any individual curriculum, consult with the Dean of the College or head of the division or department concerned.

For housing information:

A. *Men*—go to the office of the Counselor of Men.

B. *Women*— go to the Office of the Counselor of Women.

To arrange for payment of tuition and fees:

A. Under Public Law 346 or under the State Plan, deposit your Certificate of Eligibility at the Office of the Registrar on the second floor of the Administration Building.

B. Under Public Law 16, consult with the training officer in the Vocational Building.

You should bring with you at least a three months supply of money to defray expenses and take care of your needs until you begin to receive your subsistence allowance from the Veterans' Administration. All bills of room and board at the college are payable in advance.

THE STUDENT

*"The Individual Student is the Most
Important Person on a College Campus"*

STUDENT LIFE

The ideal at Bethune-Cookman College is to substitute, as far as possible, learning for instruction, to encourage the intellectual curiosity; and enthusiasm of the student, and to develop the individual to the limit of his capacity.

An essential feature of the program at Bethune-Cookman College then is the way in which the student spends his out-of-class time. He is encouraged to participate in such activities that will give him the well-rounded personality which we deem so important.

STUDENT RESPONSIBILITY

In accepting a student for admission, Bethune - Cookman College makes several assumptions:

1. That each student by the very fact that he chooses Bethune-Cookman and that Bethune-Cookman chooses him, thereby accepts the standards of personal conduct which the College considers fundamental to group living.
2. That each student earnestly desires to achieve social maturity, and that he will therefore take advantage of the opportunities offered him to learn how to make increasingly wise decisions regarding his own conduct.
2. That each student earnestly desires to achieve social the honor of the College as an institution and that he agrees to conduct himself in accordance with its standards.
4. That whenever a student demonstrates, in the judgment of the faculty, that he is unable or unwilling to maintain Bethune-Cookman standards or that he is not exhibiting satisfactory growth, his period of residence at the College and attendance in classes may be terminated, by the Administrative Committee.

ADMISSION

Every candidate for admission should file, at an early date, the following credentials in the office of the Registrar: Application blank with \$15.00 deposit, three letters of recommendation, physical examination blank, and high school transcript; in the case of veterans, Certificate of Eligibility; in the case of transfer students, transcripts of all other college work.

All credentials must be in the Registrar's Office at least six weeks before the beginning of the term the prospective student desires to enter.

All students must present an admission card on arrival at the college. This card will be sent as soon as all credentials are received by the Registrar's Office and the Committee on Admissions has approved the application.

If a student's application is not approved, he will receive a letter stating this fact and upon the written request of the student to the Business Manager, \$10.00 of the deposit will be refunded provided such request is made before the opening date of the term that the student made application for entrance.

Admission to Bethune-Cookman College may be gained by:

1. Examination.
2. Certification of a minimum of 15 units of acceptable high school work from an approved high school.

Every candidate must also be officially recommended by the principal or some other certified officer of the school from which he comes, with respect to his character and his ability to do college work.

The obtaining of the high school transcript (certificate) is the responsibility of the applicant. It is advisable to have all applications and certificates in the Registrar's office at an early date in order that the student may know his exact status before coming to Bethune-Cookman College.

Graduates of unaccredited high schools may be admitted to the Freshman Class only upon taking College entrance examinations.

ADVANCED STANDING

A student who wishes to transfer from other institutions to Bethune-Cookman College has to meet the same general requirements as freshmen. Moreover, he must see to it that the Registrar receives a complete official transcript of all work done in any other institution or institutions. Upon certificate of honorable dismissal and an official statement of credits and grades showing a scholastic standing approximating an average equivalent to "C", candidate for advanced standing will be admitted to Bethune-Cookman College. Credits, however, for those courses in which the student has made a grade of "D" will not be given unless the student takes courses in the same field or fields at Bethune-Cookman College and makes a grade of "C" in each of them.

Admission Veterans: See page 30.

GENERAL REGULATIONS

The program of the College is administered with the purpose of securing the fullest realization possible of the aim of

the College. [Students participate with faculty members in a reasonable number of college procedures. When a student finds it impossible to adjust himself satisfactorily to the life of the College, he loses his membership in the College family.]

It is the purpose of the college to develop strong men and women, with high standards of scholarship and self-discipline necessary for Christian leadership. The campus government and discipline, therefore, are founded upon the principle that character and personality building are the highest objects of education, and that good name, standing for integrity and honor, is the objective alike of the student for himself and of the college for him.

ATTENDANCE

REQUIRED ASSEMBLIES:

There are four religious services each week which all students are required to attend: Sunday School, Sunday morning church service, Sunday afternoon Community Service, and Wednesday evening Prayer Service.

The weekly chapel which is held three times a week is a significant part of the planned program of the college. Regular attendance is compulsory, however, it is intended that the chapel programs shall be so well planned and of such interest and importance that students will have an urgent desire to attend. Moreover, the chapel programs are very largely student programs. Thus, the student has in this activity an extraordinary channel through which he may have expression and self-development.

If a student accumulates three unexcused absences from assembly beyond the maximum of three which is allowed by the college he or she shall be suspended for the quarter.

Semester.

ATTENDANCE AT COMMUNITY MEETING:

The Sunday Community Meeting is compulsory for all students. Attendance is mandatory.

Prayer meeting, Sunday School and Church attendance on Sundays are also compulsory for all students. Unless the attendance at Sunday School, Prayer meeting and Church services shows a marked decrease, there will be no penalty for non-attendance.

CLASS ATTENDANCE:

Regular attendance upon meetings of classes is considered a student obligation. The responsibility for attendance is placed in the hands of the instructors in the various courses.

Students are permitted, without penalty, the same number

of unexcused absences as the number of semester hours of credit which the course carries. Instructors are expected to warn the student when he has been absent this number of times. Further absence gives instructors the right to drop the student from the course and assign the grade of "WD". This action of the instructor should be reported in writing to the Registrar and to the Dean of the College, and will become final unless the Dean of the College submits evidence showing valid reasons why the student should not be dropped.

ABSENTEES AND TARDINESSES;

Absences from class for some cause may be excused. Such absences are those due (a) to participation in recognized college activities, as those of the Glee Club, debating groups, music groups, athletic teams and the Dramatic Club, when occurring away from Daytona; (b) those due to actual illness, certified to by the physician who attended the student in person during illness; and (c) those due to emergencies caused by extraordinary circumstances, when excused by the Dean of the College.

Teachers may require students who have been absent, whether the absences are excused or not, to make up work covered during the periods of absence.

EXCUSE FOR ABSENCE:

All excuses for absences from classes must be obtained from the Dean of the College. Statements of reason for absence must be brought to the attention of the Dean within 24 hours after the absence, or within 24 hours after the return of the student to the campus in cases where the absence from class requires also absence from the campus. Where teachers or officials have statements of facts about absence of students from class, the statements are to be sent to the Dean, not to teachers of students.

If the Dean decides that the absence is excusable, she will notify all teachers concerned to record the absence as excused.

In general, student initiated absence is not excusable. The student must plan his program so as to make and meet appointments, including appointments with teachers and officials of the institution, outside of his class time.

TARDINESS:

Five minutes are given students to pass from one class to another. Each student is expected to be within the classroom at the ringing of the five minute bell. Tardiness in class attendance shall be regarded as an absence unless the matter

is adjusted by request of the student at the close of the hour. For every three marks of tardiness in each course a mark of absence shall be given.

ABSENCE BEFORE AND AFTER HOLIDAYS:

An absence from class recitations on the day immediately preceeding or following the Christmas Holidays or any other holiday recognized as such by the College shall be counted a double absence. Absence from class instruction is regarded as a serious loss to the student and in no case will credit be given until the student has satisfied his instructor that the work missed has been satisfactorily made up.

RESIDENT REQUIREMENTS:

All students, men and women, whose parents or guardians do not live in Daytona Beach, will be required to live in the College dormitories. This requirement will be waived only when written permission is given to live in the city of Daytona Beach by the President.

Parents are asked not to make too frequent requests for their children to leave the college. All requests for students to come home or go elsewhere should be made in writing to the Counselor of Women at least one week prior to the time the student desires to leave. Telegrams requesting students to come home should state reason for such requests. Requests-for-leave from parents to students will not be considered.

Students may not leave the College for any holiday or recess without permission from the following individuals: Dean of the College, Counselor of Men or Women and the Registrar, who must be notified of the absence also.

Definite dates are set upon which students are required to return to the College after holidays or recesses. Failure to return at the time specified carries with it a penalty of five dollars. Definite announcements concerning these dates are made a few days prior to a holiday.

UNIFORM DRESS

The College, from its inception, has stood for uniform dress for students, for special assemblies, believing it to be most economical, and the best means of training young people in habits of simplicity and good taste in dress.

On certain occasions students must wear uniform dress.

We are asking that young ladies provide themselves with the following:

One navy blue tailored coat suit)

Two white tailored sport blouses)

Winter

One white tailored coat suit—Summer

One pair of black oxfords with medium heels.

(No plain white dresses (eyelet or embroidery) will be used in place of a white suit).

Young men are asked to provide themselves with the following, for uniform dress occasions:

One navy blue suit

Three white shirts

One black tie

One pair of black shoes

(No gray, brown or striped suits will be used in the place of navy blue suit).

It is the policy, beginning September 1, 1951, that all uniforms be alike. Therefore, Uniforms for men and women must be purchased on the campus for prices listed below:

Blue Suits, Men \$37.50

Blue Suits, Women 27.50

White Suits, Women 15.00

These prices are subject to change.

PHYSICAL EDUCATION UNIFORM FOR MEN:

2 prs. of white shorts	@	\$.95	
2 white T-shirts	@	\$.95	
2 prs. of white wool socks	@	\$.50	
1 pr. of tennis shoes	@	\$2.95	\$7.75

PHYSICAL EDUCATION UNIFORM FOR WOMEN:

1 tropic green uniform (p. e. majors wear all white after sophomore year)	@	\$3.95	
2 prs. of white ankle socks	@	\$.50	
1 pr. of tennis shoes	@	\$2.95	\$7.90

MINIMUM DORMITORY NECESSITIES

All students are required to bring with them the following items:

2 Bed spreads
2 Dresser scarves
2 Double blankets

4 Single bed sheets	2 Pairs curtains
4 Pillow cases	1 Reading lamp

Students are requested to bring in their hand luggage sufficient bedding to take care of immediate needs, pending the arrival of trunks. Only steamer trunks may be kept in the dormitory rooms. Others will be placed in the store-room. Because of the limited store-room space students are asked to bring small trunks.

ACADEMIC REGULATIONS

REGISTRATION:

Each student must have on file in the Registrar's office a copy of his high school record, a physical examination blank, three letters of recommendation and an application blank. If a student has attended any other college, an official transcript of his record must be placed on file at this College. This transcript becomes a part of the student's permanent record. No student will be admitted to classroom instruction and recitation until he has officially registered, and his instructors have received class admission cards for each course. Registration is not complete until fees have been paid. For the privilege of registering later than the registration time set apart, a special fee of \$5.00 will be assessed. No student may register for credit after the expiration of ten days following the first day of registration in a semester.

PROCEDURE FOR DROPPING A COURSE:

1. Go to the Registrar's Office and get (2) drop cards.
2. Fill these 2 cards out and give full information requested.
3. Get Department Chairman's signature and permission.
4. Get Instructor's signature that are affected by change.
5. Get the Dean to sign these two cards.
6. Get the Registrar to sign these two cards.
7. Go to the Business Office and get them stamped.
8. Leave one card at the Business Office, and return one to the Registrar's Office.

THE SAME PROCEEDURE IS FOLLOWED FOR ADDING A COURSE.

For adding any course after five days of the last day of Registration in either Semester will cost \$2.00. Fee for courses that are dropped after the last day of Registration in either semester will be forfeited in full. By the last day of Registration is meant the last day of Registration where no penalty is charged for late Registration.

If this proceedure is not followed, an "F" will be recorded in the course dropped and no credit will be recorded in the course added.

CREDENTIALS AND TRANSCRIPTS

Credentials submitted to the Registrar become the property of the college and are kept permanently in the files.

Upon request, one transcript of credit will be issued without charge. A fee of one dollar (\$1.00) will be charged for each additional transcript.

Transcripts of credit will not be issued to students by the Registrar's office during registration periods of any term, but should be requested before or after registration periods.

WITHDRAWAL

Any student who withdraws from school should consult the Dean of the College, Counselor of Men or Women, the Registrar, and in the case of Veterans, the Veterans Administration Training Officer. Students who fail to do so may expect grades of "F" in all courses.

GRADING

CREDITS:

The unit in reckoning requirements and credits is the semester hour, equivalent to one exercise a week for a semester. Two laboratory hours count as one credit hour.

The final semester reports are made in accordance with the following system of grading:

Grade	Explanation	Percent. Equivalent	Grades Points per Credit Hour
A	Excellent	90 - 100	3
B	Good	80 - 89	2
C	Average	70 - 79	1
D	Poor but passing	60 - 69	0
F	Failure	Below	-1
I	Incomplete		
W	Withdrawn		

The Office of the Registrar will not issue reports on grades until such time as complete reports have been recorded for all students. If a student desires information on his standing in a course prior to the time of issuing report by the office, he should seek it from the instructor of the course.

Final grades earned in each course by students are mailed from the Registrar's office to parents and guardians at the end of each semester.

A student may be reported "I" (Incomplete) if some small

but essential portion of his work in a course remains unfinished due to sickness, or some other unavoidable occurrence. To secure credit, he must complete the unfinished work during his next term of residence, otherwise the Incomplete becomes an "F". A fee of \$1.00 is charged for removal of an Incomplete.

All requests for record checks must be made during the first eight weeks of any semester. During the summer session no record checks will be made except for prospective candidates for graduation. In the case of transfer students, unless all work from other institutions is on file, no record check will be made.

BALANCE SHEET

Each student is allowed one balance sheet before graduating. An additional balance sheet may be secured for a fee of \$2.00.

HONORS

Students maintaining an average of 2.30 or above with no grade below "C" in any given semester are eligible for the Dean's list. Students who maintain an average of 2.00-2.29 are eligible for the Honor List.

CLASSIFICATION OF STUDENTS

Matriculated students whose records as to entrance conditions and the completion of prescribed work are satisfactory, are classified as follows:

Freshmen: those who have completed less than thirty semester hours.

Sophomores: those who have completed more than thirty semester hours, as many quality points, but less than sixty semester hours.

Juniors: those who have completed more than sixty semester hours, and as many quality points, but less than 90 semester hours.

Seniors: those who have completed more than 90 semester hours and as many quality points.

Special Students: those who are either lacking in the required entrance units, or wish to pursue particular studies without reference to graduation, may be admitted, with the permission of the Dean to such courses of their own choice as they may seem qualified to undertake.

DELINQUENCY:

Any student who fails to maintain an average of "C" in at least three-fourths of his work is warned at the mid-semester, and his privilege to participate in extra-curricular activities is prohibited. At the end of the semester if the student's work is still unsatisfactory, he is automatically dropped for poor scholarship. A student so dropped may not enroll in this institution again.

TRANSFERS:

A student who wishes to transfer from other institutions to Bethune-Cookman College has to meet the same general requirements as freshmen. Moreover, he must see to it that the Registrar receives a complete official transcript of all work done in any other institution or institutions. Upon certificate of honorable dismissal and an official statement of credits and grades showing a scholastic standing approximating an average equivalent to "C", candidate for advanced standing will be admitted to Bethune-Cookman College. Credits, however, for those courses in which the student has made a grade of "D" will not be given unless the student takes courses in the same field or fields at Bethune-Cookman College and makes a grade of "C" in each of them.

COMPREHENSIVE EXAMINATION:

Seniors and Sophomores are required to take the comprehensive examination. Sophomore examinations will cover the general knowledge in: English, Mathematics, Science, Social Science, Education, and any other areas of knowledge of which the institution feels a student should have general knowledge. An examination will be given in the student's major field of concentration in the senior year. Seniors are required to take an English proficiency test during the first semester. No student will be recommended for graduation as long as he is deficient in oral or written English.

The first comprehensive examination will be administered free of charge. In case of failure, a fee of \$3.00 (three dollars) will be charged for each subsequent examination either in whole or part.

If the student fails the first examination, he may re-take the examination not more than once in any subsequent period. Each student will be required to make at least 70 (C) on each part of the examination.

STUDENT LOAD:

A student will be expected to carry as minimum requirement 16 semester hours of work a week. Variation from this load may be permitted only with the approval of the Dean. Students of unusual demonstrated ability may carry, with the approval of the Dean, up to 20 semester hours of work a week.

AUDITING COURSES

Any adult is permitted to audit a course upon filing an application and paying the audit fee. An auditor does not participate in class discussion, does not take examination, and therefore, does not receive credit. A fee of \$5.00 per course will be charged.

Any student who has been regularly enrolled in this institution for two semesters may audit a course with the permission of the Dean of Instruction.

EXTENSION AND CORRESPONDENCE:

Bethune-Cookman College does not at this time offer extension or correspondence work. We do, however, accept work done in this manner from approved institutions. Not more than 30 semester hours will be accepted if done through extension or correspondence.

RESIDENCE REQUIREMENTS:

At least 30 semester hours of work must be done in residence at Bethune-Cookman College.

GRADUATION

The college offers the following degrees: Bachelor of Science in Secondary Education with a major in: English, Mathematics, Science, Social Science, Business Education, Home Economics, Music, Physical Education; Bachelor of Science in Business Administration, and Elementary Education.

The candidate for the B. S. Degree must complete the following requirements:

1. The candidate must complete (124 semester hours) of work properly distributed. He must earn 124 quality points.
2. The candidate must take one major (30 semester hours) one minor (30 semester hours) for his teaching field.
3. The candidate must satisfy the requirements of the State Department.
4. The candidate must successfully complete (4 semester hours) of Physical Education.
5. The candidate must satisfactorily demonstrate character

qualifications, and a promise of usefulness to the community.

6. The candidate must successfully pass a comprehensive examination in certain basic subjects of the curriculum, a written and oral comprehensive in the major field of his choice, and an English proficiency test.
7. The candidate for graduation in the Spring Commencement must file application with the Registrar not later than the last week in September. The candidate who expects to graduate in the Summer Commencement must file application for the degree not later than the last Saturday in April of the school year.
8. The candidate must spend the last session of his work in residence study including the last (16 semester hours) of work prior to graduation.
9. The candidate must make satisfactory adjustment of all college fees and bills before being permitted to graduate
10. *The candidate is held responsible for completing all requirements for graduation by the time he expects to graduate.*
11. The candidate must re-enroll and successfully complete any course where a grade of "D" has been recorded in his major field. Candidates for graduation are required to participate in all events scheduled for the Commencement Season.

When students allow a lapse of two years to occur in their attendance at a summer session, the office reserves the right to forfeit the completion of the course requirements they were pursuing under the curriculum effective during their last attendance.

The College reserves the right to administer the courses of the curriculum in terms of the sequence in each department with regard for revisions that have been found necessary according to student needs.

GRADUATION WITH HONORS:

In order to be graduated with honors from the College, the student must have completed not less than 90 semester hours work at Bethune-Cookman College.

SERVICE TO STUDENTS

STUDENT HEALTH:

The infirmary service of the College, under the direction of a competent graduate nurse, provides for the care of all minor illnesses and the relief of acute conditions which do

not require special nursing. Supplementary to the services afforded by the College infirmary, a student may at his own expense secure any available physician he desires. In the event of serious illness the College always notifies the student's parents at once. It should be noted that the College is in no way responsible financially for personal injuries incurred in athletic activities.

A fee of \$5.00 a year is required of every student. Receipts from this fee are used to pay, in part, the cost of illness.

This fee does not cover surgical operations, oculist's charges, charges for protracted illness where special nursing is required, or charges for the treatment of social or venereal diseases.

A certificate issued by the practicing physician showing that the student is in good health and physically fit for enrollment is expected of each student at the time of registration. Matriculation of the student will not be complete until his or her health certificate has been filed with the Chairman of the Committee on Admissions. The institution reserves the right to require at the student's expense, a physical examination of any and all students failing to present such a certificate, or at any time that may be deemed necessary or advisable. A health certificate is expected before any student whose absence is caused by illness is reinstated or allowed to resume his regular program of work.

GUIDANCE:

Formal instruction and teacher-student contacts in the classroom alone fail to meet the needs of the modern student in his studies, in his social life, and in his spiritual development. It is the plan at Bethune-Cookman College to provide definitely for the guidance of every student under the close personal supervision of a member of the faculty. These contacts are informal and friendly.

The student is given the opportunity to share in the planning process for his growth and development. All teachers share in the responsibility to counsel students. To assist students in developing their own physical, mental, emotional, and spiritual resources for self-management and self realization is the counselor's main interest, with the hope that the wholesomely integrated individual will be the final outcome. Whether the guidance be academic, vocational, or social, advice is given the student based upon factual information. Through the testing program and departmental advisors, the student's occupational choices and interests are carefully studied.

READING CLINIC

Because of the recognition of the inability of students to read, a fact which hampers progress in all other fields of learning, the English Department of Bethune-Cookman College has formulated an extensive reading program instituted in September, 1947.

The program has as its objective the following:

1. Discovery of causes for poor reading.
2. Guidance and supplementary practice work in reading with concentration on individual weaknesses.
3. Appreciable increase in reading comprehension and speed for the student.
4. Training of the prospective teacher of English in the techniques of teaching reading.

Any student who desires aid in Reading may become a part of the program, but that *student must remain so for the entire year.*

RESOURCE USE EDUCATION

In accordance with our goal to develop the whole personality of students, it is imperative that the college offer instruction in Resource-Use Education.

There are three levels upon which living must be improved, namely, natural, human and cultural. The student's ability to improve himself on these levels depends upon how well he is able to locate, explore and use the resources in each of these fields basic to instruction in Resource Use Education.

The instruction in this area will provide fundamental tools, skills, and techniques for the recognition and utilization of the wide range of resources which the student's environment affords.

The program of the college is directed not only toward the realization of its own goals but also toward the implementation of important findings in this area of research.

Through participation in local, state, and national workshops and conferences, the college has kept in touch with the recent studies and trends in Resource Use Education, and is prepared not only to administer a special course but to integrate the teachings into each area of specialization.

FORUMS

Bethune-Cookman College is a member of the Florida Forum Series, and during the winter of each year presents on its platform the speakers of this Forum for the benefit of the students and people of the community. Attendance to this activity is required of all students.

LIBRARY:

Harrison Rhodes Memorial Library is one of the most modern and complete libraries in the Southeastern region. As a result of the various changes that have occurred, the demand for wide information and clear understanding has been greatly increased. To aid in solving this problem for our clientele, we have housed here one of the largest collections of books, periodicals, mimeographed materials, and general literature in the State of Florida available to Negroes. Our collection of 20,520 volumes and 182 monthly and quarterly publications rivals the libraries of the foremost Negro institutions in the nation.

In order that our library may serve its broadest function in enrichening educational opportunities, consultant services with the various curricular divisions assures us of books selected on a basis of their recency of publication, point of view and approach and potentiality for adequately serving the needs and interests of our College and Community clientele.

DINING HALL:

The College has a well-equipped dining hall for the use of the College Family. A full-time competent dietitian with an adequate staff provide well-balanced meals that are nutritious and appetizing. In addition to being a place for eating, the dining hall is also a place where students and staff members share with each other cultural experiences.

GUESTS:

Students and teachers are responsible for meals for their guests taken at the College Dining Hall or the Cafeteria. The rates for transient meals in the dining hall are: Breakfast, 65c; Dinner, 75c; Supper, 75c; Ordinarily, the Institution reserves several guest rooms for friends and visitors to the campus. All visitors accommodated in the respective buildings over-night must be registered with the person immediately in charge of the building. Rates quoted herein are subject to change.

STUDENT ORGANIZATIONS

Student activities at Bethune-Cookman College are controlled by the students with the cooperation of the administration and faculty of the College. The authority of the student body is vested in the Student Council, which has for its purpose the control and management of student activities, the

promotion of good fellowship, and the maintenance of good citizenship in the student body.

The College maintains a membership in the Southern Inter-Collegiate Athletic Conference. Football, Baseball, Basketball, and Tennis are engaged in on competitive basis. These activities are supplementary to the Physical Education program given in classes to all students. The ideal climate of the Halifax Country makes outdoor sports possible the year round.

Students with musical tastes are urged to join the Glee Club, Choral Ensemble, Band or Orchestra. These units render numerous public programs, on which commendable performances of individual students attract scholarships from philanthropic visitors for further training.

The Handel Choral Ensemble is a mixed chorus of fifty voices. This choral organization is promoted for the purpose of giving directed singing experience to a large number of students.

No previous training is necessary, but regular attendance is required. This group presents a musical program each Sunday at the Sunday afternoon Community Service and appears in concert on seasonal occasions during the school term.

The Special Group is a musical organization composed of eighteen singers. It is so called because it renders special services to the institution. It is one of the most influential publicity media of the college. Prerequisites for membership include ability to sing in four part harmony, reliability, loyalty to the college, and a pleasing personality.

TRA-CO-DRAM

Tra-Co-Dram, the Dramatic Club, is a non-credit, extra-curricular organization. Membership in the club is voluntary. A student must have an academic average of at least 1.5 in order to become a member.

The purposes of the club are: (1) To discover and encourage dramatic talent, (2) to serve as a means of broadening the individual's cultural background, (3) to provide profitable entertainment for the college as a whole and its environs, (4) the promotion of some worthwhile, necessary project for the good of the institution, and (5) to give the individual guidance in the choice of a cultural avocation.

Undergraduate chapters of the following Greek-Letter Organizations have been organized on the campus: Alpha Kappa Alpha Sorority; Alpha Phi Alpha Fraternity; Delta Sigma Theta Sorority; Kappa Alpha Psi Fraternity; Omega Psi Phi Fraternity; Phi Beta Sigma Fraternity; Sigma Gamma Rho

Sorority; Zeta Phi Beta Sorority. Chapters of the Alpha Kappa Mu, National Honorary Society, and Beta Kappa Chi, National Honorary Scientific Society, have also been organized.

The moral and spiritual atmosphere of the campus is safeguarded by regular religious services and by the Young Men's Christian Association and the Young Women's Christian Association.

Non-Fraternal organizations are: Mummies, Zeniths, Cavaliers, Cavalettes, Farmerettes, NAACP, departmental clubs and Atomites, and Auto Mechanics.

All Club organizations shall make the Treasury of the College the depository for all funds, fees, and moneys collected, and are required to submit their books, financial records, and statements to the Business Office quarterly for audit. Failure to do either of these things automatically forfeits the charter of the organization.

All students participating in student organizations must maintain an academic average of "C".

STUDENT AID

Usually there is a limited number of work aid jobs that worthy students are able to obtain. These jobs normally pay from \$10.00 to \$15.00 per month and are not based on an hourly rate but upon the requirement of completing the work to be done.

Students working on student work aid assignment will receive credit for the amount of work aid the first business day of the month following the month in which the assignment was carried out. For example, a student assigned to a student work aid job in September will receive credit for same the first business day in November. Work aid credit for the month of May will be paid at the end of the month either in cash or by an adjustment of charges.

No student will be eligible for pay who does not receive work aid assignment card from the business office prior to beginning work on the work assignment. It will be the student's responsibility to secure a work aid card prior to working on an assignment.

Deductions will be made from a student's work credit for time lost on the assignment or an unsatisfactory service. Though recommendations of students for work aid assignments are transferred to the Business Office for approval in line with the school budget, the Business Office is not an employing agency for student workers. Students desiring work aid should contact those persons who employ student labor

such as the Librarian, the Counselor of Women, the Dietitian, Heads of Departments and so forth.

SCHOLARSHIPS

Bethune-Cookman College awards a number of scholarships on the basis of need, promise and ability. Some of the scholarships available to students are awarded directly by the donors, and administered through the Business Office of the College and the Committee on Student Aid and Scholarships. The committee also collects all information relative to the basis of award, value and other pertinent facts regarding the scholarships. Likewise, the committee collects information on the applicants and supplies it to the donors. In some instances the Committee is given authority to award scholarships without consulting the donors.

Although high scholarship achieved through academic endeavor is an important feature in qualifying for a scholarship, it is not the only consideration. Additional requirements are based upon the fundamental principles of good character and citizenship. Good health, attitude, seriousness of purpose, ability to get along with others and initiative are also significant criteria.

Some scholarships have special privileges and limitations. Specifications may be ascertained in the scholarships listed below.

1. Tuition Scholarships for Freshmen.
2. The Martha Louise Van Ness Memorial Scholarship.
3. House Bill No. 111 Scholarship.
4. Florina Lasker Scholarship Fund.
5. Fraternity and Sorority Scholarships.

The College offers students aid in the following ways:

1. Tuition Scholarships for Freshmen — A limited number of tuition scholarships for freshmen in the amount of \$150.00 each is available. These scholarships are awarded to the first, second or third ranking member of the high school graduating class of the current year upon recommendation of the high school principal. Only two scholarships are awarded each high school.

2. Part-Time Employment — Part-time employment is possible for a limited number of students in various campus jobs. *5-year work plan*

3. Full-Time Employment — Students who find themselves financially unable to enter college may find it convenient to enter as full-time work students; that is work one year and go to school the following year. *Delete*

House Bill No. 111 provides for scholarships of \$300.00 for dependent children of deceased World War Veterans who entered the service of the United States from the State of Florida. Parents or children must be residents of the State for five years. Application should be made to the Secretary of the Board of Control, Tallahassee, Florida.

Provision is made by the State Rehabilitation Board of the Department of Education for students of minor physical disability who desire to prepare themselves for lucrative employment. Such students, upon the approval of their applications to the State Rehabilitation Board, Tallahassee, will be provided tuition, fees, and text-books by the State.

Students enrolled at Bethune-Cookman College for the first time should not come depending upon securing work, but should come prepared to pay the full amount of their expenses until they have oriented themselves and have demonstrated their ability and worth.

PRESENTATION OF SCHOLARSHIP PAPERS:

Students who have been awarded scholarships through the normal channel are required to submit the scholarship letters to the Secretary of the Business Manager upon reporting for registration.

ACTIVE LOAN ACCOUNTS

1. The Student Loan Fund of the Methodist Church:

This is a revolving fund from which Methodist students in Bethune-Cookman may borrow amounts as follows:

Freshman — Maximum loan	100.00
Sophomores — Maximum loan	150.00
Juniors or Seniors — Maximum	200.00

These loans, at low interest rates are approved only for students in full-time attendance, on the basis of their eligibility as determined by the Faculty Loan Committee.

Applicants must be seventeen years of age or over, must give evidence of good health, Christian character, intellectual interest, promise of usefulness to Church and society, and satisfactory evidence of financial responsibility.

Applications for these loans should be directed to the Faculty Loan Committee.

2. The Reese Student Loan Fund:

A revolving fund established by Mrs. Veva Reese Friend, from which students in the current graduating class may borrow small amounts on short-term notes. Interest rates are low.

Applications for loans are received and acted upon by the Faculty Loan Committee.

3. The Delta Sigma Theta Loan Fund:

A revolving fund established by the Delta Sigma Theta Sorority for loans to worthy students in the current graduating class who are unable to meet the expense of their final year without such aid. Maximum loan to student, \$75.00, on notes of six, nine, or twelve months. Applications for loans are received and approved by the Faculty Loan Committee.

4. The Gertrude Brown Memorial Loan Fund:

This revolving fund was created to help worthy seniors. Small amounts may be borrowed from this fund on short term notes not exceeding 12 months with interest at 3 per cent per annum. Applications should be directed to the Faculty Loan Committee.

5. The First Baptist Church Friendship Circle has created a loan fund of \$50.00 from which worthy students in the Senior Class may borrow small amounts to be repaid in one year with interest at the rate of 3 per cent per annum. Applications should be directed to the Faculty Loan Committee.

6. Daytona Beach Tourist Club Scholarship Fund:

A scholarship fund established by the Daytona Beach Tourist Club to be loaned to any student recommended by the President and the Executive Committee of the Tourist Club. Notes are to be executed by the student and the loan is not to exceed a two year period.

Applications should be submitted to the President or the Faculty Loan Committee.

7. Vada Sommerville Scholarship Fund:

A scholarship fund established to aid any worthy student. Students may borrow small amounts on signed notes which will not exceed one year.

Applications for loans should be submitted to the President of the Faculty Loan Committee.

GENERAL FINANCIAL REGULATIONS

I. ENTRANCE CHARGES, as indicated in this catalog, must be paid IN FULL at registration. No reduction will be made, nor extension of time granted, for the payment of these charges.

Students, Resident or Non-Resident, entering the Second

semester, who were not registered in the first semester, are required to pay ANNUAL FEES of \$33.00 and the Student Activity Fee of \$5.00 or \$8.00, whichever is applicable, together with board, room, and laundry charges.

II. ROOM, BOARD AND LAUNDRY—IF INCREASING FOOD COSTS COMPEL AN ADVANCE IN THE RATE OF BOARD, THE COLLEGE RESERVES THE RIGHT TO MAKE SUCH INCREASE AT ANY TIME DURING THE YEAR.

Board, room and laundry are offered as a group for the nominal rate indicated in this catalog. Bethune-Cookman College does not offer room without board or board without room.

Meal tickets are issued monthly upon payment of monthly charges. The retention of a meal ticket is the responsibility of the student. In the event a meal book is stolen or lost, only one replacement will be made at a charge of \$2.50; if this is lost the student is required to pay for the remaining meals in that month.

III. PAYMENT OF ACCOUNTS: TO PARENTS OF STUDENTS.

Bethune-Cookman College emphasizes promptness in the payment of all bills. Fees and charges for room and board have been determined in the light of present conditions. The College reserves the right to make increases at any time during the course of the year in these charges if conditions make this necessary.

In paying bills, parents are advised to make checks and/or orders payable to Bethune-Cookman College and to send payments directly to the Office of the Business Manager rather than to their children in so far as practicable. Payments should be sent by registered mail. The preferable modes of payment are by cashier, certified or bank checks and orders. Official receipts for payments are mailed promptly or given to the student, whichever is applicable. In as much as payments and payment dates are clearly stated in this catalog, statements of student accounts are mailed only on request. Any expense made, such as telegrams and telephone calls, in connection with the collection of student accounts will be charged to the student.

All bills are payable one month in advance. If a student allows his account to lag he will be dropped from class or requested to withdraw from the College. In no case may a student receive a degree, transcript or certificate until a satisfactory settlement of the account has been made.

A student who owes tuition or other fees at the end of the semester will not be permitted to take the final examinations or receive credit for that semester.

IV. REFUNDS — TUITION

If for any reason a student withdraws from the College before completion of a regular session, a percentage of his tuition will be retained by the College on the following basis: (In all cases, time will be computed from the official opening day of the session). *This statement is not to be construed as nullifying any other statement or statements regarding refunds.*

One week or less	20%
Between one and two weeks	40%
Between two and three weeks	60%
Between three and four weeks	80%
Over four weeks	100%

REFUNDS — BOARD, ROOM AND LAUNDRY.

A refund of board, room and laundry will not be made for a period shorter than fifteen days. In no event will more than 50% of board, room and laundry be refunded. Computed from the first day of the month the amount that will be retained by the College will be as follows:

1 to 10 days	50%
11 to 17 days	80%
Over 17 days	100%

REFUNDS — COURSE FEES.

No refund of annual fees or fee courses will be made. Refund of fee sent with application—See Registration.

Madame Pandit, India's Ambassador to U. S., visits campus of Bethune-Cookman. President Moore, Founder Bethune and Bishop Gregg greet her during her stay on campus.

THE CURRICULUM

THE CURRICULUM

PURPOSE: In order that Bethune-Cookman College might accomplish its objectives, the curriculum which follows has been adopted. The philosophy of the College proposes a certain destination; the curriculum is the route suggested to faculty and students to reach this goal.

The curriculum is basically concerned with life as it is today. It holds that education is life, experience, appreciation, knowledge, culture, and adjustment; it does not work upon a narrow concept of the educational process. It holds that a fundamental purpose of the curriculum should be to develop an integrated personality. This personality which it envisages should appreciate the many fine things of life, This personality would see beauty in the home, in the landscapes, in art in literature, in music, in any task or assignment well done. Not only is the curriculum to provide satisfactory vocational choices for those persons who need them at the time but it is also to arouse enthusiasm which leads to life interests.

The curriculum is not planned as a completion of a student's education. For some it may mean a completion of their formal education; for many it may serve simply as a foundation for more specialized studies upon a high grade level, but for both of these groups the curriculum is planned as a stimulus to greater endeavors.

The curriculum is not an end in itself—it is a means to an end. Its prime service is to provide a reliable compass to direct the student into a more complete life.

ORGANIZATION

The Bethune-Cookman College curriculum has a four-fold purpose:

- 1 to build a broad foundation in general education for adequate citizenship in a democratic society;
- 2 to give thorough preparation in the fundamentals of a specialized area (major) yet providing elective hours in some closely allied field (minor);
- 3 to develop sensitivity and awareness of prospective work through professional treatment;
- 4 and, implementation of knowledge, skill and understanding in practical experience in laboratory, school, community public service occupations.

The curriculum is organized into two distinct but interrelated levels:

The first two years (Freshman and Sophomore) comprising

the lower level constitutes the General Education program; the last two years (Junior and Senior) comprising the upper level constitutes the Specialized, Professionalized, Practical Experience program.

All students are required to complete the lower level courses. These courses are broad non-specialized fields of subject matter that are functional and meaningful for living in a complex modern society yet they furnish a broad foundation of comprehensive knowledge for specialized training.

The lower level (General Education) curriculum is required of all freshmen and sophomores. The courses in this level give the liberalizing background for successful living and later specialization in the upper level curriculum.

THESE COURSES ARE:

- Eng. 101 - 102 Communications
- Soc. Sci. 101 - 102 American Institutions
- Sci. 101 - 102 Biological Science
- P. E. 101, 102 - 201, 202 Physical Activities
- R. E. 101 - 102 Biblical Literature
- Math. 101 - 102 College Mathematics
- Ag. 101 - 102 Agriculture (men)
- H. Ec. 101 - 102 Homemaking (women)
- Eng. 201 - 202 Humanities
- Sci. 201 - 202 Physical Science
- Hl. Ed. 221 - 223 Personal and Community Hygiene
- Ed. 201 - 202 Foundations of Education
- Soc. Sci. 203 Marriage and Family
- Eng. 333 Public Speaking

The curriculum functions through five divisions of instruction as follows:

- I. Division of Education and Psychology
 - 1. Elementary Education
 - 2. Secondary Education
 - 3. Psychology
- II. Division of Home Economics
- III. Division of Humanities
 - 1. Art
 - 2. English
 - 3. Modern Language
 - 4. Music
 - 5. Philosophy
- IV. Division of Mathematics and Science
 - 1. General Science
 - 2. Science - Medical

- a. Biology
- b. Chemistry
- 3. Pre-Medical (two year)
- 4. Mathematics
- V. Divisions of Social Sciences
 - 1. Business Administration
 - 2. Business Education
 - 3. Secretarial Science (two year)
 - 4. Physical Education
 - 5. Social Studies

SUMMER SESSION

The summer Session is planned to meet the needs of those who wish to avail themselves of the opportunity for study and health building recreation. The session is so arranged as to provide not only the highest type of instruction in the professional fields as well as in the field of general culture, but also to make possible for the student to carry on a program of recreation under unique climatic and scenic advantages. In addition to study leading to a degree or the extension of a certificate, the Summer Session is especially adapted to meet the needs of the following groups:

1. Teachers who wish to secure help in becoming better prepared to do the job they are doing now.
2. College and other students who wish to remove conditions or other deficiencies.
3. Those who are interested in accelerating their regular program.
4. Those interested in study, primarily, for the sake of general culture.

EVENING SESSION

Bethune-Cookman College continuously endeavors to adjust its facilities to meet the needs of the moment. It especially feels a responsibility to adults who seek their training here. Therefore, in response to the need for extension of services to adults who find it impossible to attend day classes, the college makes training available through evening courses. While these courses are designed for the convenience of full-time or part-time adults, they are commensurate with the regular day classes in quality and quantity.

These courses may meet the following needs:

1. Extension of certificates
2. Completion of requirements for the B. S. Degree.

3. Improving professional techniques.
4. For prospective college students.
5. College students who wish to avoid loss of time due to interruption of regular classes.
6. Teachers who desire additional subjects on the face of their certificates.

EDUCATION AND PSYCHOLOGY CURRICULUM

The Division of Education and Psychology is a service division offering foundation courses for the professional curriculum in the other divisions of the college, and providing practical experiences for the majors in the other divisions who are preparing to teach.

The Department of Elementary Education is the major responsibility of this division.

The majors in Elementary Education working toward the Bachelor of Science degree in Education pursue courses in the following phases of the educative process:

General Education	Semester Hrs.	Professional Education	Smstr. Hrs.
Communications	6	Foundations of Education	6
Biological Science	6	Curriculum	6
College Mathematics	6	Children's Instructional	
American Institutions	2	Materials	2
Biblical Literature	2	Audio-Visual Instruction	2
Physical Education	4	Observation and Practical	
Agricultural Education (men)	2	Experience in Teaching	6
Home-making (Women)	2	Public Speaking	3

The Division of Education offers to Secondary Majors the following foundation and professional courses:

Foundations of Education	6
Audio-Visual Instruction	2
Observation and Practical Experience	6
Reading	2
	<hr/>
	22
Special Methods	2
(in cooperation with major division)	

During the Freshman and Sophomore years all majors are following courses in General Education in which all the divisions of the school work cooperatively for the direction of learning. In the curriculum of elementary education cooperative offerings are continued in the Junior and Senior years.

1. In the Methods and Materials and Demonstration Workshop the following courses are concerned:

Ed. 320	Methods and Materials of Arithmetic	2
Ed. 324	Methods and Materials of Science	2
Ed. 330	Methods and Materials of Social Studies	2
Ed. 334	Methods and Materials of Health Education	2
Ed. 321	Methods and Materials of Physical Education	2

This requires a battery of teachers and the cooperation of other major areas.

2. The Social Science Division offers the elementary major:

Geography	2
Marriage and the Family	2

3. The Home Economics Division offers the elementary major:

Lunchroom Management	2
Clothing Care and Renovation	2

4. The Humanities Division offers the elementary major:

Public Speaking	2
Basic Elementary Art	2
Basic Elementary Music	2
Public School Music	4
Public School Art	4

This will mean in many cases that a student will require an extra semester or a year in order to complete his training - over and above the traditional four year organization of curriculum.

DESCRIPTION OF COURSES

EDUCATION 100 - BASIC UNDERSTANDING

Required of all beginning teacher training students. This course leads the student to an understanding of the principles underlying the teaching profession and of the qualifications of the person who should enter the field of teaching. Outstand-

ing teachers are called in to lead discussions and a general preview of the profession is covered.

It is expected that a student eligible for this course during the second semester of the freshman year should have earned at least a "C" average during the first semester.

EDUCATION 101 - AGRICULTURAL EDUCATION

A beginning course in agriculture dealing with a "Live at Home Program" designed to meet the individual needs of students. Emphasis will be placed on school, and home gardening, school and home beautification, and production, processing and conservation of foods.

EDUCATION 102 - AGRICULTURAL EDUCATION

A continuation of 101, but on a more technical basis. Both courses are required of all freshmen (men) and elective for advanced students. Each course carries one (1) semester hour of credit. All persons who plan to teach will find these courses to be very helpful in planning urban and rural school programs.

EDUCATION 207 - FOUNDATIONS OF EDUCATION—

Education in the American Culture. The study of education as a social responsibility and a social process. Education in relation to problems past and present. One semester. Credit; 3 semester hours.

EDUCATION 208 - FOUNDATIONS OF EDUCATION

Education as personal and human development. The course considers the biological, psychological and cultural basis of behavior. Knowledge of characteristics of children and youth will be emphasized. One semester. Credit: 3 semester hours.

EDUCATION 205 - GENERAL PSYCHOLOGY

An opportunity for students to deal with elements of behavior and personality development as concerns learning, motivation, thinking, emotional, social, mental and physical growth. This course is offered more particularly for majors in pre-medical, pre-pharmaceutical and pre-dental areas.

EDUCATION 212 - BASIC ELEMENTARY ART

A survey of art teachings for various maturation levels of children in the elementary school. An understanding of art materials and techniques to be used by the teacher in releasing children to do creative work in art. This course is prerequisite to Education 322 - 323.

EDUCATION 221 - BASIC ELEMENTARY MUSIC

A beginning course in the fundamentals of music. Sight

reading, harmonizing melodies, general keyboard facility for accompanying children's songs and adult group singing. Credit: 2 semester hours. This course is prerequisite to Education 312 - 313.

EDUCATION 231 a - BASIC READING

An intimate study of the prospective teacher's own problems in reading and opportunity to analyze and provide ways and means for remedial approach to each problem in reading. An opportunity to read widely at the maturation level discovered in one's self and gradually increasing the maturation level. Prerequisite to the course in Reading Methods.

EDUCATION 232 - AUDIO-VISUAL EDUCATION

A study of curriculum enrichment through the use of audio-visual materials; general principles underlying the sources, selections, utilization, and production of audio-visual materials; basic training in the operation of all types of audio-visual equipment. Designed for pre-service and in-service teachers, leaders of youth and adult groups, and supervisors and directors of audio-visual materials.

Laboratory fee \$3.00. Credit: 2 semester hours.

EDUCATION 301 E - 302E (Elementary Level)

351 S - 352S (Secondary Level)

The course in Curriculum is a study of the historical development of experiences which have promoted learning in the American schools. A survey of the socio-economic changes which effect curriculum development; a study of the need of school children, the experiences that meet those needs and the application of the findings through the courses provided in the schools. A thorough study of State bulletins and publications in order to apply learnings to the promotion of the teaching, testing, remedial and diagnostic teaching and appraisal are studied, organized and observed.

Prerequisites are: Education 201, 202, 203, 232, 231a.

This course is prerequisite to Practice Teaching. One year course. Credit: 3 semester hours each semester.

EDUCATION 310 - PRODUCTION OF AUDIO-VISUAL MATERIALS

Deals with the production of motion pictures, sound and silent filmstrips, standard and miniature slides, recordings and transcriptions, and graphic materials. Includes the selection and organization of subject matter, preparation of scripts, and technical problems of production. Prerequisite: Education

223 or by permission. Laboratory fee, \$3.00.

Credit: 2 semester Hours.

EDUCATION 331 - READING METHODS

An intimate study of the multiple background experiences in children that affect reading ability. A survey of the kinds of experiences which develop reading ability. Materials and methods best adapted to the instruction of reading at various maturation levels. One Semester. (Supplies and Kit Required) Prerequisite: 231a. Credit: 2 Semester Hours.

EDUCATION 312 - 313 PUBLIC SCHOOL MUSIC

Materials and methods for teaching music in the elementary grades make up the content of these courses. A study of the child voice, note songs, the toy symphony, art and rhythm songs, sight singing from Note to note and music appreciation. Prerequisite: Education 221. One Semester. Credit: 2 Semester Hours.

EDUCATION 322 - 323 PUBLIC SCHOOL ART

These courses provide concrete experiences in the materials and techniques to be used in the process of teaching art to children. The prospective teacher learns to correlate art experiences with other school activities in the promotion of an integrated child personality. Art in the "Lives of Florida's Children" is a centralized idea during these studies. Prerequisite: Education 212. One Semester. Credit: 2 Semester Hours. (Materials fee \$3.00).

EDUCATION 320 - 324 - 330 - 340 (First Semester)

320a - 324a - 330a - 340a (Second Semester)

METHODS AND MATERIALS WORKSHOP

From a common stem of educational and psychological principles and from the root understandings that a teacher has about how children learn, the methods and materials workshop will lead the prospective teacher into the creative study of materials and techniques for teaching the child how to experience learning in the areas of Arithmetic, Social Studies, Science, Physical Education and Health Education. The study of units of work with various core ideas will permeate the structure of the course. Prerequisite: Education 201, 202, 203, 332, 301, 302. Two Semester. Credit: 10 Semester Hours.

EDUCATION 332 - HEALTH EDUCATION

Emphasis is placed upon the role of the teacher in providing health consciousness, health attitudes and health living in pupils. An opportunity to examine the relationship of food, narcotic, and clothing and habits to good health. An opportunity

to examine the relationship of parents, local agencies, health boards and other organizations to the general, personal and community welfare in health. This course is prerequisite to Education 334 (included in Workshop) One Semester. Credit: 2 Semester Hours.

EDUCATION 402S - INTERNSHIP

Opportunity to utilize professional and specialized experiences at level of theory in the actual classroom experience. The course provides for orientation experiences in which a preview of principles and problems is carried out; long term planning and textbook analysis included. Then the actual internship or practice with a daily planning and record keeping of learning experiences; followed by the post - internship seminar and appraisal experiences. Prerequisites: Education 201, 202, 203, or 204. Special Methods at both levels.

Elementary majors (400E) study problems and practice in the elementary grades. Secondary majors (400S) study problems and practice in the High School levels both junior and senior. Groups observe for credit at both levels. One Semester. Credit 6 Semester Hours. (Laboratory fee \$30.00).

EDUCATION 350 - CHILDREN'S INSTRUCTIONAL MATERIALS

A survey of the various types of reading materials available for the free reading of children. An examination of reading lists from various sources and a study of how to release children to read in terms of their interests and needs. Special emphasis is placed upon dramatization, films, charts, peep shows, paper movies, bulletins, reading centers, interest inventories.

EDUCATION 363 - SPECIAL METHODS

The Division cooperates with the major areas in providing special methods for the prospective teacher. This course will be offered in both semesters. Students pursuing special methods in their minor or restricted area may enter the course after having completed one semester of curriculum. The major area may be taken after completing one semester or two in Curriculum. The fact that we teach pupils and the education and psychological principles involved in the subject matter are the directives which the education division establishes with regard to teaching of the content.

EDUCATION 400E - 401E PRACTICE TEACHING

Opportunity for practice teaching under the guidance of the instructor. Students have an opportunity to participate in the all-day program for children, and may work at planning, or-

ganizing and conducting the program for particular age or learning levels, or in cooperation with the work of entire school. Two Semesters. Credit: 3 Semester Hours. Laboratory fee \$15.00 per semester. Prerequisite: 201, 202, 203, 204, 401E.

EDUCATION 400S - 401S PRACTICE TEACHING

Opportunity for teaching in groups and classes; organization of units of instruction, teaching problems, and problems of class management. The student is given actual practice in teaching in the field of his specialization, units of instruction, teaching problems, and problems of class management. Two Semesters. Credit: 3 Semester Hours.

Laboratory fee \$15.00 per semester. Prerequisite: 201, 202, 203, 204, 402S.

EDUCATION 405 - 406 SEMINAR

The elementary majors review the field of elementary education and seek to crystallize their thinking concerning the major findings for teachers of children. Each major carries forth a simple piece of research concerning some problem in the field. Independent study is encouraged and demonstration of the findings through laboratory resources in the Seminar Workshop. Prerequisite Senior standing. Two Semesters. Credit: 2 Semester Hours.

EDUCATION 403 - 404 ADMINISTRATION OF ELEMENTARY SCHOOLS

The administration of the elementary school in the light of its purposes and functions. An analysis of a principal's duties are made in order to understand his part in the development of a good elementary school. Two Semesters. Credit: 6 Semester Hours.

EDUCATION 403S - 404S ADMINISTRATION OF SECONDARY SCHOOLS

Treatment of organizational and administrative problems of the secondary school. Two Semesters. Credit: 6 Semester Hours.

EDUCATION 409E - 410E SUPERVISION OF ELEMENTARY SCHOOLS

The supervision of the elementary school. Basic principles for a supervisory program designed for the improvement of teaching. Two Semesters. Credit: 6 Semester Hours.

EDUCATION 409S - 410S SUPERVISION OF SECONDARY SCHOOL

Emphasis and basic principles for the improvement of teach-

ing in the secondary schools. Two Semesters. Credit: 6 Semester Hours.

LEADING TO THE BACHELOR OF SCIENCE DEGREE IN PSYCHOLOGY

The work of a major in Psychology and Education is concerned with the scientific study of human behavior. The studies above the foundation courses in general education deal with the consideration of psychological processes which are demonstrated in the development of the individual personality, and the relations of the individual to the members of his group and of society. Any psychology major who wishes to teach must complete practice teaching requirements as well as the work in the clinical and experimental psychology. The Seminar Course provides basic understandings of psychological principles and elements of research in psychology which are helpful to students pursuing study in this field.

DESCRIPTION OF COURSES

EDUCATION 202 - PSYCHOLOGY IN EDUCATION

A study of what psychological research has done to make the educative process scientifically meaningful. A study of the psychological principles to be used in the teaching process and the problems which go from the areas of educational pursuit to the laboratories of psychology for study. Prerequisite: Education 201. One Semester. Credit: 2 Semester Hours.

EDUCATION 203 - CHILD PSYCHOLOGY

A study of the processes involved in Child Growth and development and their relationship to learning. An intimate understanding of children and why they act as they do. A guide to the teacher's goal for considering each individual child worthy of consideration in terms of his differences, interests, capabilities, desires and attitudes. Prerequisite: Education 201, 202.

EDUCATION 206 - MENTAL HYGIENE

The study of cases of maladjustment and how the teacher may lead the individual to a wholesome personality development. Various types of deviates analyzed. Prerequisite: Education 205.

EDUCATION 208 - EXPERIMENTAL PSYCHOLOGY

Designed to be a laboratory course in the use of psychological principles, findings and instruments. Lecture demonstration and laboratory hours involved; independent laboratory work on the part of the student in the utilization of psychological methods of studying behavior. Prerequisite: Education 201, 202, 205.

EDUCATION 209 TEST AND MEASUREMENTS

An introductory course in which measurement is applied to education. A study of different varieties of mental and educational tests. The nature, function and use of measurement in the appraisal of educational products and the application of measurement in the school, classification, guidance, marks,

evaluation. One Semester. Credit 3 Semester Hours.

EDUCATION 210 - STATISTICS

Descriptive statistics; see Mathematics 411.

DIVISION OF HOME ECONOMICS

The Home Economics Division aims to prepare its students to be efficient homemakers, intelligent citizens and contributors in the world of work, with special emphasis on the prep-

aration of home economics teachers in the schools of Florida.

Courses in Home Economics deal with the effective feeding and clothing of the family; the care and guidance of children; the family relationship, the organization and running of the home on sound economic, social, hygienic basis, and the growth of artistic sense and taste that brings beauty in the home in many ways, adding to the contentment and serenity of family life.

Requirements for a major in Home Economics are: thirty-six semester hours in the field of specialization, fourteen hours in home and family, twelve in food and nutrition, ten in clothing and textiles and electives in related arts.

Supporting courses: Twelve hours in biological and physical sciences, six hours in mathematics, ten hours in social science, eight hours in English, eight hours in humanities, four hours in physical education, two hours in Bible and six hours in education.

Home Management residence is required for each major in the senior year. The cost of a six-weeks period is based on the fees for college residence halls plus ten dollars (\$10.00) for special privileges in residence.

H. E. 301 - CLOTHING SELECTION AND CONSTRUCTION

A course concerned with a critical personal analysis of each student, with the selection of dress materials, with various patterns and designs suitable for each particular personality. Each student is required to make one garment with a stripe design and one with a plaid design. Students provide the materials for each project. (Laboratory fee, \$5.00) 1 Semester. Credit: 3 Semester Hours.

H. E. 303 - FOOD SELECTION AND NUTRITION

This survey course includes the principles of food preparation and the application of science to the solution of cookery problems, such as color, flavor, texture and nutritive changes occurring in foods. Students should attain skills in specific cookery techniques and should be able to apply this knowledge and skill critically in food preparation. (Laboratory fee \$5.00) 1 Semester. Credit: 3 Semester Hours.

H. E. 305 - HOME MANAGEMENT (Theory)

This course is designed to help clarify the scope and meaning of management in the home, and to help the students recognize and use intelligently the many resources available to help them accomplish their individual purposes. It aims also to help students to understand the relation between general economic conditions and economic problems of the home and to provide a background for intelligent civic action in furthering human well-being. 1 Semester. Credit: 3 Semester Hours.

H. E. 307 - HEALTH AND HOME NURSING

This course is a study of home hygiene, first aid in emergencies, the care of the sick or injured members of the family, home remedies, causes and prevention of illness. (Laboratory fee, \$1.00). 1 Semester. Credit: 2 Semester Hours

H. E. 302 - CLOTHING—DRAFTING AND DRAPING

(Prerequisites: H. E. 301).

This course is designed to offer opportunities for the de-

velopment of skill in methods and techniques in fitting, flat pattern making and draping. Laboratory work is concerned with the preparation of an individual dress form, the construction of a foundation pattern, completion of two garments, a dress and suit. (Laboratory fee \$8.00). 1 Semester. Credit: 2 Semester Hours.

H. E. 304 - FOODS—MEAL PLANNING, PREPARATION AND SERVICE

This is a course in which consideration is given to the problems and serving of meals. Emphasis is placed on the types of service and the organization, management of time, money and energy involved. Consideration is given to the study of silverware, glassware and chinaware. (Laboratory fee, \$5.00). 1 Semester. Credit: 3 Semester Hours.

H. E. 306 - FAMILY CLOTHING

(Prerequisites: H. E. 301 - 302)

This course offers opportunity for practice in selection and construction, in make-over, repair, care, and renovation. Emphasis is on the clothing needs of growing children of both sexes as well as adults. (Laboratory fee, \$5.00). 1 Semester. Credit: 2 Semester Hours.

H. E. 363 - HOME ECONOMIC METHODS

(Prerequisites: Introduction to Education, Psychology in Education, and Secondary Education).

This course is a presentation of materials, methods, problems, and activities encountered in the teaching of home economics. Some of the factors considered are, the making of lesson plans, preparation and collection of illustrative materials, the history of home economics, the making of a course of study, and special problems. 1 Semester. Credit: 3 Semester Hours.

H. E. 431 - HOME MANAGEMENT

(Residence)—Prerequisites: H. E. 305, 352, 411

A study of home management as an educational experience in home and family life. Here the student has opportunity to co-ordinate all previous experiences by actually living in the home designed for this purpose. (Laboratory fee, \$15.00 per semester). Offered 2 Semesters. Credit: 3 Semester Hours each semester.

H. E. 411 - ADVANCED NUTRITION

(Prerequisites: 8 hours Inorganic Chemistry, 5 hours Organic Chemistry, H. E. 303, 304, 312, or 342)

This is a course in the principles of normal nutrition—choice

and use of food for achieving and maintaining optimum health with emphasis on practical food selection, problems of individuals and application to the selection of adequate diets at different cost levels. Emphasis is placed on the function of various food constituents such as proteins, minerals, fats, carbohydrates, and the vitamins. (Laboratory fee, \$8.00). 1 Semester. Credit: 3 Semester Hours.

H. E. 352 - ART—HOUSE FURNISHING

Planning and decorating single rooms, apartments, and houses to meet personal-family needs. Trends in home furnishing design, arrangement, color, and treatment of background given special consideration. 1 Semester. Credit: 3 Semester Hours.

H. E. 342 - QUANTITY FOOD PREPARATION

(Prerequisites: 8 hours Inorganic Chemistry, 5 hours Organic Chemistry, H. E. 303, 304, 313).

Training in the preparation of food in quantity; includes a study of menu making, food standards, and food service. (Laboratory fee, \$8.00). 1 Semester. Credit: 3 Semester Hours.

H. E. 312 - EXPERIMENTAL COOKERY

(Prerequisites: 8 hours Inorganic Chemistry, 5 hours Organic Chemistry, H. E. 303, 304, 313).

This course requires independent laboratory work in solving of practical problems in food preparation; study of methods and techniques used in experimental work in foods, and written reports organizing and critically analyzing experimental results. (Laboratory fee, \$8.00). 1 Semester. Credit: 3 Semester Hours.

H. E. 432 - CHILD CARE AND DEVELOPMENT

A study of the physical, mental and emotional development of the child and the problems involved in his care and training; behavior problems, heredity, and the influence of home environment and the family. 1 Semester. Credit: 3 Semester Hours.

H. E. ~~444~~ - 405 - 406 SEMINAR

A course for seniors only. It is planned primarily as a review of the field of home economics to assist in carrying on independent study and senior projects and to encourage research to prepare students for graduate work. (Prerequisite: senior standing). (Year course). Credit: 1 hour each Semester.

H. E. 403 - ADVANCED CLOTHING

(Prerequisites: H. E. 301, 302, 306).

Problems involving expert technique in handling difficult types of materials and designs. Efficiency, speed, and good selection are highly emphasized. Students supply materials. Approximate cost \$10 - \$25. (Laboratory fee, \$15.00. 1 Semester. Credit: 3 Semester Hours.

H. E. 313 - FOODS—PRODUCTION, CONSERVATION AND USE

(Prerequisites: 8 hours, Inorganic Chemistry, H. E. 303, 304).

This course is designed to acquaint students with home food preservation methods including storing, canning, freezing, dehydrating, brining, pickling, and jelly-making; the principle techniques involved in each method; the comparative retention of food values; the problems presented by various home situations. (Laboratory fee, \$5.00). 1 Semester. Credit: 3 Semester Hours.

H. E. 314 - FAMILY ECONOMICS

(Prerequisite to H. E. 305, Home Management Theory).

The study of factors determining family, human and financial resources. The principles for management of individual and family income; social security system, housing insurance, annuity, banking, wills, and other business principles and procedures of the home. One semester. Credit: 3 Semester Hours.

H. E. 433 - 434 NURSERY SCHOOL EDUCATION

(Prerequisites: H. E. 432 and 307. Adolescent Psychology).

In this course, psychology is applied in order to understand the behavior of young children and to work out the principles of guidance. The study of individual children in the nursery school is required in relationship to the aspects of behavior routine and creative abilities, individual and social, as they are related in their personalities. Emphasis is placed upon the principles and guidance as the basis for selecting procedures and techniques and predicting and evaluating their outcomes. Periodical observations are scheduled in the nursery school for each week throughout the term. 1 Semester. Credit: 3 Semester Hours.

H. E. 321 - HOUSEHOLD PHYSICS

A course designed to give students an over-view of the correct use, care and purchase of various household appliances.

Lectures and discussions deal with fundamental principles of heat, electricity, mechanics, and light and their application in the home. (Laboratory fee, \$2.00 per Semester.

BACTERIOLOGY: See—Science and Mathematics page 121

HUMANITIES

The Division of Humanities is comprised of five departments: Music, English, Art, Modern Languages, Religious Education and Library Service. The Bachelor of Science Degree in Secondary Education with a major in English, Music or Art may be pursued.

The Division seeks to develop in its students:

- Effective and intelligent communication
- Creative expression
- Critical thinking
- A sense of spiritual values
- An appreciation for the ways, thoughts and beliefs of other people.

DIVISION OF HUMANITIES DEPARTMENT OF ENGLISH 1951-52

The aims of the English Department are:

- To promote effective expression of ideas.
- To develop an appreciation for the culture of the past and present.
- To foster understanding of the history and development of the language.
- To develop an appreciation for the literature of all ages.
- To improve the quantity and quality of reading.
- To provide opportunity for creative endeavor in the field.
- To correlate the skills learned in the department with those acquired in other departments.

All students are required to take 6 semester hours in Communications and 8 hours in Humanities. 36 semester hours are required for a major in English.

The English major's first and second year courses of study will conform to that of the general education pattern of courses as given above. Additional courses required for graduation in English are as follows:

American Literature
 English Literature
 Oral Interpretation of Speech
 Teaching of Reading
 Seminar
 Special Methods of Teaching English

The English Department suggests the following arrangement of courses during the student's Junior and Senior years; although, the student may elect American Literature or English Literature during the Sophomore year.

ELECTIVES

Library Service
 Foreign Languages:
 French

Spanish
 German
 Journalism

Restricted certification may be easily secured by the English Major in:

- Library Service 12 semester hours required
- Bible 12 semester hours required

The student who is able to carry additional hours because of academic ability will find it relatively easy to secure:

- Certification in Art 30 semester hours required

- b. Restricted Certification in a Language 18 semester hours above the first year introductory college level course required
- c. Restricted Music Education 18 semester hours required

Restricted certification must be planned in a field closely related to English.

ENGLISH

ENGLISH 101 - 102 COMMUNICATION

A one year course required of all Freshmen. The course is designed to improve the reading, writing, speaking and listening habits and tastes of the Students. Emphasis is placed on the use of the four language arts as tools of effective communication in all fields of endeavor. Provision is made for encouragement of the individual's best means of communicating ideas. Herein, are included the media of music and art particularly. Year Course. Credit: 6 Semester Hours.

ENGLISH 201 - 202 HUMANITIES

A one-year course of study in General Education required of all sophomores. An attempt is made in the four sections of the course: Literature, Art, Religion and Philosophy, and Music, to thoroughly acquaint the student with a minimum of endeavors and achievements which underlie our present way of life. The course in its historical and chronological pattern of development seeks to help the student broaden his own cultural knowledge and appreciation and to motivate him to further self-improvement. It embraces the periods of Greek and Roman, Medieval, Renaissance (16th century), Romantic, Victorian, and Contemporary Civilization. Year course. Credit: 8 Semester Hours.

ENGLISH 211 - 212 ENGLISH LITERATURE

(Including Shakespeare)

One year course required of English Majors. Chronologically arranged, the scope of study covers major developments and writers from Beowulf through Victorian England. The student is encouraged to broaden his choice of reading material. Year course. Credit: 6 Semester Hours.

ENGLISH 301 - 302 ADVANCED COMPOSITION

An elective, but a requirement of all students (English majors) who evidence such a need. Organized according to the expressed needs of the students. Points of emphasis usually include writing style, spelling, dictionary use, and funda-

mentals of good oral communication. Year course. Credits: 6 Semester Hours.

ENGLISH 3-- - AMERICAN LITERATURE (One Semester)

An introduction to the writings of Americans with emphasis on the development of ideas in American life and culture, as reflected in the literature. Attention is given to author's various concepts of the ends of literature and the class evaluates the success or failure of the author upon reading the works. One Semester. Credit: 3 Semester Hours.

ENGLISH 232 - PUBLIC SPEAKING

(Fundamentals of Speech. One Semester)

The course is devoted to the study of the organs of speech with emphasis on the articulation and distinctiveness of speech sounds. This course is required of all students. Credit: 2 Semester Hours.

ENGLISH 322 - ORAL INTERPRETATION OF LITERATURE (One Semester)

This phase of study is devoted to the principles and techniques involved in the selection, preparation, and delivery of speech materials. Individual presentations and the verse-speaking chorus are widely used in the interpretation of selected literary passages. Required of all English majors, but other students may be admitted with special permission. Credit: 3 Semester Hours.

ENGLISH 362 - SPECIAL METHODS OF TEACHING ENGLISH

A thorough study of the organization, materials, and methods of the presentation of English in the Secondary School. One Semester. Credit: 2 Semester Hours.

ENGLISH 404 - SEMINAR

(A course for seniors only)

It is designed primarily as a review of the student's major field to assist him in carrying on independent study and senior projects and to encourage research. Work is correlated with that of Practice Teaching. One Semester. Credit 1 Semester Hour.

ENGLISH 331 - TEACHING OF READING

(Educational Department Service)

Required of all English majors. The course consists of the development of sound and practical criteria for the selection and organization of learning experiences through reading. The course also deals with the materials and methods best adapted to instruction in elementary reading and English. One Semester. Credit: 2 Semester Hours.

MODERN LANGUAGES

The Modern Language Department aims to develop facility in reading, speaking, writing, and hearing a foreign language. It endeavors to give the student an appreciation for the culture and the civilization of different international groups.

At present the college offers sufficient courses in French and Spanish to fulfill the state requirement for restricted certification. Eighteen semester hours above the introductory course are required for a minor in a single language.

FRENCH

DESCRIPTION OF COURSES

MODERN LANGUAGES 101 - 102

ELEMENTARY FRENCH

This course emphasizes the essentials of grammar, pronunciation, reading and dictation. Opportunities for simple conversation and composition are provided. Year course. 3 Semester hours per semester.

MODERN LANGUAGES 201 - 202

INTERMEDIATE FRENCH

A review of essentials of Elementary French. More emphasis on conversation and reading. Opportunities for listening and recording. Year course. 3 Semester Hours per semester.

MODERN LANGUAGES 301 - 302

ADVANCED FRENCH (Phonetics, Composition and Conversation)

A course in oral and written self-expression. Special attention given to correct pronunciation, intonation, rhythm, vocabulary, oral and aural expression. Emphasis on idiomatic expressions. Year course. 3 Semester Hours per semester.

MODERN LANGUAGES 401 - 402

SURVEY OF FRENCH LITERATURE

An introduction to the literature of France from the Middle Ages to the present day. Year course. 3 Semester Hours per semester.

EDUCATION 360 - SPECIAL METHODS IN THE TEACHING OF MODERN LANGUAGES

SPANISH

MODERN LANGUAGES 111 - 112 ELEMENTARY SPANISH

Essentials of Spanish grammar. Simple reading, conversation and composition emphasized. Year course. 3 Semester Hours per semester.

MODERN LANGUAGES 211 - 212**INTERMEDIATE SPANISH**

A review of the essentials of Spanish Grammar. More emphasis on reading, conversation and composition. Opportunity for listening and recording provided. Year course. 3 Semester Hours per semester.

MODERN LANGUAGES 311 - 312**ADVANCED SPANISH**

(Grammar, Conversation, and Composition)

A study of advanced grammar, oral and written self-expression, idioms, vocabulary and fluency. Year course. 3 Semester Hours per semester.

MODERN LANGUAGES 411 - 412 ADVANCED READING

Reading of selections from more famous Spanish and Latin American writers. Year course. 3 Semester Hours per semester.

EDUCATION 360 - SPECIAL METHODS IN THE TEACHING OF MODERN LANGUAGES

A course emphasizing various methods and types of materials used for effective teaching of languages in Secondary Schools.

GERMAN**MODERN LANGUAGES 121 - 122****ELEMENTARY GERMAN**

An elective offered for majors in Science, English or for other students who plan advanced study. Grammar is emphasized during the first semester; reading of simple German books for second semester. Year course. 3 Semester Hours per semester.

ART**INTRODUCTORY STATEMENT**

Members of the Humanities and Education division, realizing the great need for special art teachers in this state, have approved an Art program that will satisfy the state requirements for an art major and can be combined with the Elementary education or English Curricula producing a double major. (providing the student maintains a "B" average).

Courses of study are presented to give familiarity with masterpieces; directed experience in creative techniques; and practice in methods, programs and the use of materials for prospective elementary and secondary school teachers.

Lecture and laboratory courses are open as electives to the general student and afford a means of increasing his appreciation of art and an opportunity to try out his abilities.

STATE REQUIREMENTS

(30 Semester Hours)

1. Nine semester hours chosen from drawing and painting, graphic art and sculpture.
2. Four semester hours in composition and two semester hours in design theory.
3. Nine semester hours of design in materials such as ceramics, metal work, textiles, wood, plastic, leather, etc.
4. Two semester hours in lettering and from four to six semester hours in history of art or art appreciation.

NOTE:

Special methods in teaching art education in the secondary school to the extent of six semester hours are desirable; three semester hours of such methods are required.

COURSE DESCRIPTIONS

ART 300 - LETTERING

Theory of design and practical exercises in lettering. One semester course. Credit: 2 Semester Hours.

ART 301 - DESIGN THEORY

The study and appreciation through creative experiences of the elements of design such as line, shape, form, space, value, color and texture. A series of projects of increasing difficulty in the elements and principles of art including both abstract and representational interpretations. One semester course. Credit: 2 Semester Hours.

ART 311 - PUBLIC SCHOOL ART I

This course has been prepared for the elementary teacher. It is a practical course dealing with elementary color theory, drawing, lettering, seasonal construction problems etc. One semester course. Credit: 3 Semester Hours.

ART 312 - PUBLIC SCHOOL ART II

Designed primarily for the elementary school teacher but is used in the art major sequence. Deals with simple craft problems used in the elementary school; clay, paper mache, wood, leather, box sculpture, block printing, weaving, batik, stitchery, stencil and dying. One semester course. Credit: 3 Semester Hours.

ART 313 - ADVANCED CRAFTS

A continuation of Art 312 with special emphasis on two of the crafts. Prerequisite: Art 312. One semester course. Credit: 3 Semester Hours.

ART 316 - DRAWING AND PAINTING

Projects in the form of illustrations, portraits, still life, and mural designs. One semester course, 3 Semester Hours. Course fee per semester, \$6.00.

ART 321 - COMPOSITION I

Elementary problems in two and three dimensions with emphasis on compositional organization. One semester course. Credit: 2 Semester Hours.

ART 322 - COMPOSITION II

A continuation of Art 321. More difficult drawing and painting problems with emphasis on compositional organization. Prerequisite Art 321. One semester course. Credit: 2 Semester Hours.

ART 416 - ADVANCED DRAWING AND PAINTING

Arranged with the department head. Prerequisite: Art 316. Advanced problems in water color, charcoal and oil. One year course. Credit: 3 Semester Hours per semester.

ART 420 - DESIGN IN CERAMICS

Work in clay modeling including the making of plaques and ceramic forms. Objects are decorated and glazed. Prerequisite: Art 312. One semester course. Credit: 3 Semester Hours.

HUMANITIES**DEPARTMENT OF MUSIC**

The college affords to the student an opportunity to pursue courses leading toward the Bachelor of Science Degree with a major in Music Education as well as basic courses in music which will prepare him for professional study.

ENTRANCE REQUIREMENTS

Each student who wishes to enter the Department of Music is given a musical aptitude test. The student who does not successfully pass this test is required to take Music 104 - 105, Fundamentals of Music, with no credit, as a foundation for succeeding courses.

The following entrance requirements prevail for applied study:

- a. Piano: Scales, chords and arpeggios; a simple Czerny study or its equivalent; a movement of a classical sonata.
- b. Voice: Simple ear training and sight singing tests; a prepared song displaying tone, voice placement, phrasing, etc.
- c. Instruments:
 - Wind: A simple composition displaying tone and phrasing; scales and arpeggios.
 - Percussion: Familiarity with the important rhythmic patterns.
 - Strings: A simply study displaying basic techniques.

General Requirements:

A student may not miss a lesson without sufficient cause.

The student is not to perform in public without the consent of his instructor.

All majors in music must spend four years of specialization

in one area of applied music; (Voice, Piano or Instrumental). Credit is offered only in the Junior and Senior years. Upon recommendation of the instructor credit may be given before this time for work of superior quality.

Each music major must participate in some musical activity, Choir, Band, Piano Ensemble. Credit is given upon advice of the director of activity.

Attendance at all recitals is required.

GRADUATION:

The following requirements must be met in order to be eligible for graduation and certification by the State of Florida, Department of Education:

1. Eighteen hours of Applied Music.
Instrumental majors:
Conducting, Applied Music, Instrumental pedagogy, either voice or piano pedagogy.
Voice Majors:
Choral technique, applied music, voice pedagogy, either piano or instrumental pedagogy.
Piano Majors:
Choral technique or conducting, applied music, piano pedagogy, instrumental or voice pedagogy.
2. Eight semester hours of theory, to include Harmony, Sight-singing and Ear-training, Counterpoint, Form and Analysis.
3. Eight semester hours of Methods and Materials, to include Music in the Elementary School and Music in the Secondary School.
4. Two semester hours of History of Music.
5. Presentation of a Senior Recital.

DESCRIPTION OF COURSES

MUSIC 101 - 102, 201 - 202, 301 - 302, 401 - 402

APPLIED MUSIC

Voice, Piano, Instrumental, brasswinds, strings, percussion, will be taken by all majors in music. Two half-hour lessons weekly, one hour class instruction weekly. No credit until junior and senior years unless recommended by instructor.

MUSIC 104 - 105 FUNDAMENTALS OF MUSIC

Introductory course providing basic training, the study of scale constructions intervals and chords. Required of all students who do not pass musical aptitude tests. No Credit.

MUSIC 211 - HARMONY AND EAR-TRAINING

Primary triads and fifths, chords, their inversions. Harmonizations of simple melodies and basses. One semester. 2 hours credit per semester.

MUSIC 306 - MUSIC IN ELEMENTARY SCHOOL

Methods and Materials of music in elementary grades. Study of the child voice, rote songs, toy symphony, art rhythm songs, sight singing from note to note. One semester. Credit: 4 semester hours.

MUSIC 307 - MUSIC IN THE SECONDARY SCHOOL

Study of the methods and materials of Junior High and Senior High school music. Voice testing, intonation, operation of special groups such as band, chorus, ensembles. One semester. Credit: 4 semester hours.

MUSIC 308 - INSTRUMENTAL PEDAGOGY

A study of the problems involved in teaching the instruments of the band and orchestra; the organization, development and direction of the band. One semester. Credit: 2 semester hours.

MUSIC 308 - PIANO PEDAGOGY

Modern methods of piano teaching. Study of suitable teaching materials emphasizing the musical approach in piano study. One semester. Credit: 2 semester hours.

MUSIC 308 - VOICE PEDAGOGY

Study of the problems involved in teaching voice. Knowledge of techniques used in developing and correcting voices of adolescents. One semester. Credit: 2 semester hours.

MUSIC 311 - HISTORY OF MUSIC

General survey course of music development; charts, illustrations, scores and recordings. One semester. Credit: 2 semester hours.

MUSIC 312 - FORM AND ANALYSIS

Analysis of periods, phrases, motives and figures. Variations showing the different ways of motive development. One semester. Credit: 2 semester hours.

MUSIC 404 - CONDUCTING AND ARRANGING

A study of the technique of the baton and the fundamentals of conducting and arranging instrumental compositions. Practical experience. One semester. Credit: 2 semester hours.

MUSIC 405 - CHORAL TECHNIQUES

Choral organization and conducting with emphasis on the high school choral group. Tone interpretation, classification of voice, care of the adolescent voice and program building. One semester. Credit: 2 semester hours.

Required of voice majors.

MUSIC 413 - COMPOSITION

The fundamentals of composition in the smaller forms. Analysis of works representing forms. One semester. Credit: 2 semester hours.

MUSIC 403 - PIANO ENSEMBLE

Study of piano ensemble literature. Performance by students. **REQUIRED OF PIANO MAJORS.** One semester. Credit: 2 semester hours.

MUSIC 407 - 408 SEMINAR

Senior course planned primarily as a review of the student's major field, Assistance in carrying on independent study and senior projects. To encourage research and prepare students for graduate study. Senior only. Two semesters. 1 semester hour per semester.

Individual Instruction in Piano, per month \$6.00

Individual Instruction in band instrument, per month 6.00

LIBRARY SERVICE**(Restricted Library Service Certificate)**

Being cognizant of the many changes in American Life during the last two decades which have greatly affected the demands made on individuals as well as all agencies concerned with the education of children and adults, the schools of America have become more and more conscious of the Library as the central factor in the program of instruction. Because of this increased consciousness, demand has exceeded supply, creating an acute shortage of trained personnel. In order to meet this crisis and in keeping with the objectives of our College we have deemed it beneficial and necessary to offer to our students the opportunity to be prepared to give qualified services in the school library, therefore the following courses in Restricted Library Service will be added to our curricula offerings, effective, September, 1951.

LIBRARY SERVICE 301 - 302**BOOKS AND RELATED MATERIALS**

Printed and audio-visual materials will be considered. Selection of materials from the pre-primary through the ninth grade will be stressed the first semester; materials from tenth through senior high school will be stressed the second semester. Use, care, and criteria for selection of book and non-book materials will be an important phase of the course. Materials

fee \$12.00 per semester. One year course. Credit: 3 semester hours per semester.

LIBRARY SERVICE 401 - 402 ORGANIZATION AND ADMINISTRATION OF SCHOOL LIBRARIES

This course includes training, planning, organization, and equipment of the library quarters with emphasis on acquisition, preparation and circulation of materials. Also included in this course will be instruction in the use of libraries and the place and function of libraries in the school. Materials fee \$12.00 per semester. One year course. Credit: 3 semester hours per semester.

SOCIAL SCIENCE DIVISION

The Department of Social Science curriculum is organized to give the student an understanding of his environment and its influence upon the individual. It has five primary objectives:

1. It proposes to help students develop the critical and objective attitudes toward social problems and human experiences;
2. It proposes to equip students with basic tools and materials for evaluating situations of a socio-historic nature.
3. It proposes to assist students in developing leadership qualities which will enable them to take the lead in their communities;
4. It proposes to train students to adjust in our changing society and become good citizens of our democracy;
5. To develop teachers of the social sciences on the secondary level.

Students pursuing a major in Social Science will be guided by the department chairman in the selection of electives.

✓ DESCRIPTION OF COURSES

SOCIAL SCIENCE 101 - 102

AMERICAN INSTITUTIONS

This course is a combination of history, economics, political science, sociology, law and geography. It is designed to give the student an understanding of the trends, forces, and movements which have contributed to the development of our American institutions. The course is primarily concerned with the interrelationship of our various institutions and the part they play in directing the course of our democracy. Special emphasis is placed upon the development of a system of values by the student which will help him to adjust to and participate in our American way of life. One year course. Credit: 4 semester hours per semester.

SOCIAL SCIENCE 201 - 202

INTRODUCTORY SOCIOLOGY

This is an introductory course designed to acquaint the student with the origin, development, structure and function of

society and its institutions. One semester course. Credit 3 semester hours.

SOCIAL SCIENCE 211 - WORLD HUMAN GEOGRAPHY

Man's adaption to both his geographical and social-cultural environments. Emphasis on the geographical influences on man's cultural development. One semester. Credit 3 semester hours.

SOCIAL SCIENCE 222 - RESOURCE-USE EDUCATION

This course is designed to development understandings of the problems, techniques, and policies involved in the conservation and intelligent use of our human, social and natural resources. Reading materials, field trips, pictures, lectures, and maps provide data for reasoning discussion. One semester course. Credit: 2 semester hours.

SOCIAL SCIENCE 301 - 302

EUROPEAN HISTORY (1500 to the Present)

Emphasis is placed upon the Protestant Reformation, the commercial and dynastic rivalries, and the Revolutionary Era in France. One semester course. Credit: 3 semester hours.

SOCIAL SCIENCE 311 - PRINCIPLES OF ECONOMICS

This course is designed to furnish a general introduction to the field of economics and to contribute a basic course in the fundamentals of economic science. One semester course. Credit: 3 semester hours.

SOCIAL SCIENCE 331 - AMERICAN NATIONAL GOVERNMENT

The legislative, judicial and executive branches of the national government put to the student's critical examination in light of the essential requirements of the republican form of government. This course is required before any other course in Government may be taken. One semester course. Credit 3 semester hours.

SOCIAL SCIENCE 332 - STATE GOVERNMENT

A study of state constitutions, and the structure and functions of local institutions in the United States. The Constitution of the State of Florida will be studied. One semester course. Credit: 3 semester hours.

SOCIAL SCIENCE 362 - SPECIAL METHODS OF TEACHING SOCIAL STUDIES

The characteristics of the social studies and their place in the secondary school curriculum; training in methods of study, selection and critical examination of text and reference books,

illustrative material and visual aids; examination and appraisal of classroom procedures. One semester course. Credit: 3 semester hours.

SOCIAL SCIENCE 371 - ANTHROPOLOGY

This course is designed to acquaint the student with the evolution of man in his cultural environment. Its main objective is to offer the student a greater appreciation of his own culture through a knowledge of the social processes that have come down through the ages. One semester course. Credit 3 semester hours.

SOCIAL SCIENCE 401 - SOCIAL PSYCHOLOGY

Group behavior will be studied in the course as well as the individual as influenced by group membership. One semester course. Credit 2 semester hours.

SOCIAL SCIENCE 412 - CLASSICAL INSTITUTIONS

Emphasis in this course is placed upon the religious, political and philosophical institutions of the Ancient and Medieval Worlds. One semester course. Credit: semester hours.

SOCIAL SCIENCE 421 - 422 SEMINAR

A course for seniors only. It is planned primarily as a review of the student's major field to assist in carrying on independent study and senior project. Furthermore, it is designed to encourage research in the way of preparing students for graduate work. One year course. Credit: 1 semester hour per semester.

SOCIAL SCIENCE 431 - COMPARATIVE GOVERNMENT

The political institutions of the important European, Asiatic, and African states and territories are studied in the light of world democratization. One semester course. Credit:

SOCIAL SCIENCE 432 - LATIN AMERICAN HISTORY

The political, social, and economic developments of the peoples south of the Rio Grande from the first contact of the white invaders with the Indians to the period of the establishment of the national governments of these lands are studied. The course deals especially with the leading Spanish conquerors who prepared the way for the establishment of Spain's control over East Florida. One semester course. Credit: 3 semester hours.

SOCIAL SCIENCE 312 - CONSUMER AND APPLIED ECONOMICS

A study of the application of fundamentals economic prin-

Marriage + Family

ciples to the end of comprehending American industrial and consumers problems. One semester course. Credit: 5 semester hours.

SOCIAL SCIENCE DIVISION

BUSINESS DEPARTMENT

The offerings of the Business Department are as follows:

1. A four-year program leading to the Bachelor of Science degree in Business Administration.
2. A four-year program leading to the Bachelor of Science degree in Business Education.
3. A two-year program leading to the certificate in Secretarial Science.

The general aims of the Business Department are:

1. To provide basic concepts, principles, techniques for those who plan to enter business endeavors as a vocation.
2. To combine cultural training with a general preparation for career in business and public service.
3. To prepare students for further study in the field of business.
4. To prepare selected students for the teaching of business subjects in the secondary schools.
5. To prepare selected students for gainful employment as office workers and to equip them to render efficient service as routine office worker.

During the first two years the student is expected to lay a broad foundation for later specialization. To accomplish this end, the business student will follow the same General Education Program as is followed by all other students on the Freshman and Sophomore levels.

BUSINESS ADMINISTRATION

The following program is suggested for those desiring to major in the field of Business Administration.

This major is recommended for those planning to enter one of the practical fields or industry as administrators, office workers, or to engage in a business enterprise of their own. This program does not qualify one to teach in the public schools.

SECRETARIAL SCIENCE

The following program is suggested for those desiring to prepare themselves for general office work. It is for those who desire to engage in practical office routine such as that

of secretary, file clerk, general typist, and stenographic work.

This is a two-year program designed for those who do not see their way clear to remain in college four years and yet desire some type of training in office work. Persons completing this program will not be entitled to teach in the public schools.

DESCRIPTIVE COURSES

BUSINESS 101 - ELEMENTARY SHORTHAND

Aims to develop an understanding of the basic principles of Gregg Shorthand and the ability to apply these principles to an extensive shorthand vocabulary. Requirements: Dictation at 80 WPM and Transcription at 25 WPM. One semester course. Credit: 3 semester hours. Course fee, \$5.00 (Typing and shorthand).

BUSINESS 102 - INTERMEDIATE SHORTHAND

The principles of the Gregg Shorthand System are reviewed and vocabulary building is continued to the acquisition of a comprehensive business vocabulary. Requirement: Dictation at 120 WPM and Transcription at 30 WPM. One semester course. Credit: 3 semester hours. Course fee, \$5.00 (Typing and shorthand).

BUSINESS 103 - 104 ELEMENTARY TYPEWRITING

A course designed to develop the highest degree of basic typing skill in a minimum of time. The experiences of the students are those of typical personal and business use. Requirement: 35 WPM and 45 WPM respectively. One year course. Credit: 1.5 semester hours per semester.

BUSINESS 105 - INTRODUCTION TO BUSINESS

An introductory course to the field of business designed to give the student a background of information concerning the function and structure of business enterprises. A preparation for advanced courses in business.

BUSINESS 206 - TRANSCRIPTION

This course consists of shorthand, typing and grammar. It is designed to develop the highest possible efficiency in taking dictation, composing correspondence, and transcribing dictated materials. Open only to students who have met the requirements in shorthand and typing. One semester course. Credit: 3 semester hours.

BUSINESS 202 - BUSINESS ENGLISH

This course is designed to develop the business student in the art of composing and writing business letters of all types. It gives the student a business vocabulary and develops the ability to get over his idea in the most satisfying manner.

BUSINESS 301 - SALESMANSHIP

This course is designed to present the essential principles of effective salesmanship. Prerequisite: General Psychology. One semester course. Credit: 3 semester hours.

BUSINESS 302 - PRINCIPLES OF INSURANCE

This course explores the theory, practice, and problems of risk bearing in business. Life, Property, Fire and Marine Insurance are discussed for practical methods of solving business and personal problems. Prerequisites: Economics. One semester course. Credits: 3 semester hours.

BUSINESS 303 - SELLING INSURANCE

This course is concerned with marketing the service of Life Insurance. It includes the psychology of selling, the place of the salesman in society, the approach, professional ethics, building the debit, management, conservation and consolidation. Prerequisites: Principles of Insurance. One semester course. Credit: 3 semester hours.

BUSINESS 304 - BUSINESS MATHEMATICS

This course is designed especially for students of business. The basic principles of Business Mathematics are treated. Interest rates, Annuities, evaluation of securities and assets are emphasized. One semester course. Credit: 3 semester hours.

BUSINESS 305 - PRINCIPLES OF BUSINESS EDUCATION

The principles, purposes, administration and supervision of

business education are studied. An understanding of the relationship of business education to the total secondary school program is treated. **REQUIRED OF BUSINESS EDUCATION MAJORS.** One semester course. Credit: 3 semester hours.

BUSINESS 306 - PRINCIPLES OF REAL ESTATE

A course in the fundamental economic aspect of real estate. Treating changing character of the urban economy and its effects on the value of real property. Ratio of improvement value to land value, depreciation, maintenance. Prerequisite: Economics, Business Mathematics. One semester course. Credit: 3 semester hours.

BUSINESS 307 - RETAILING MERCHANDISING

A consideration is given to retail establishments from a point of view of organization, personnel and management. One semester course. Credit: 3 semester hours.

BUSINESS 308 - ADVERTISING

This is a general course in advertising, dealing with the use and means of advertising in selling goods and services. One semester course. Credit: 3 semester hours.

BUSINESS 309 - OFFICE PRACTICE AND MANAGEMENT

This course is designed to give the student an over-all view of the problems of office management and techniques of management; also to make known to the student acceptable office practices. One semester course. Credit: 3 semester hours.

BUSINESS 310 - ELEMENTARY ACCOUNTING

Accounts and records peculiar to single proprietorships are discussed. Books of original entry, assets, liabilities, the book-keeping cycle are treated. One semester course. Credit: 3 semester hours.

BUSINESS 401 - PRINCIPLES OF ACCOUNTING

A continuation of Accounting 310. Accounts and records used by partnerships and corporations are emphasized. Prerequisite: Accounting 310. One semester course. Credit 3 semester hours.

BUSINESS 402 FILING AND OFFICE PRACTICE

Theory of filing and practice with filing materials. Theory of office practice in actual office situations. Prerequisite: Shorthand and Typing. One semester course. Credit: 3 semester hours. Course fee \$5.00.

BUSINESS 403 - BUSINESS LAW

This course is designed to give the students practical know-

ledge concerning the law of contracts, agency, personal property, negotiable instruments, and business crimes, and torts. One year course. Credit: 3 semester hours per semester.

BUSINESS 404 - BUSINESS ORGANIZATION

This course concerns itself with the various types of business enterprises. The formation, management, advantages and disadvantages of type. The legal status and social effects of organization and management of same. One semester course. Credit: 3 semester hours.

BUSINESS 405 - MONEY AND BANKING

A study of our modern monetary and banking systems with emphasis on the uses of money will be studied in relation to providing security for the American Banking System. One semester course. Credit: 3 semester hours.

BUSINESS 406 - INVESTMENTS

A survey of the leading types of investments. Methods of determining investments needs and the forces and uses of investment information. The fundamental factors of a sound investment program for the individual, including real estate. One semester course. Credit: 3 semester hours.

BUSINESS 407 - MARKETING

This course presents the fundamental principles, methods, and problems of marketing. It deals with the procedures of buying and selling for business enterprises as well as organization for buying and selling. The approach will be from the managerial point of view. One semester course. Credit: 3 semester hours.

BUSINESS 408 - OFFICE MACHINES

The laboratory content includes work on the popular types of adding and calculating machines, the operation of dictation machines, and duplicating machines. One semester course. Credit: 3 semester hours. Course fee, \$5.00.

BUSINESS 409 - BUSINESS FINANCE

Deals with the financial structures and problems involved in the financing of business enterprises. Prerequisites: Economics, Business Mathematics. One semester course. Credit: 3 semester hours.

BUSINESS 420 - BUSINESS SEMINAR

This course provides opportunities for research and attacking original problems in business situations. It provides the professional atmosphere and experiences needed to contribute

to the field. Open to graduating seniors only. One semester course. Credit: 2 semester hours.

PHYSICAL EDUCATION

The department of Physical Education offers required Physical Education (General Education) for all freshmen and sophomores and Special and Professional Curricula for prospective teachers of Physical Education. Programs in Intercollegiate Athletics, Intramural Athletics and Recreation are promoted for training in major and minor sports, encouragement of group and individual competition and enjoyment and participation in organized athletic sports and wholesome recreation.

Successful completion of requirements in Physical Education leads to the B. S. degree and certification by the State Department of Education without further examination. Electives carefully chosen in related fields with approval may be used to complete certification in a second teaching field. Electives are offered to provide restricted certification in Health Education.

The following are aims and objectives of the Physical Education Department.

AIM:

To provide ample opportunity for individuals to participate in a variety of total-body activities that are physically wholesome, mentally stimulating and satisfying, and socially sound.

GENERAL OBJECTIVES:

1. To develop fundamental skills suitable for the individual both in and out of school.
2. To develop a comprehensive knowledge of rules, techniques and strategies in activities suitably adapted to all students.
3. To develop socially acceptable and personally rewarding behavior in and through relationships with others in physical education activities.
4. To develop desirable health habits through participation in physical education activities that fit the individual's own being.

PHYSICAL EDUCATION

Description of Courses

P. E. 101 - 102 PHYSICAL EDUCATION ACTIVITY

Required of all Freshmen. Year Course. Credit: 2 semester hours.

WOMEN: Fieldball, Soccer, Speedball, Basketball, Stunts and Tumbling, Volleyball Softball. Course fee, \$3.50 first semester. \$4.00 second semester.

MEN: Six Man Football, Soccer, Speedball, Basketball, Fleetball, Volleyball, Softball. Course fee, \$5.00.

P. E. 201 - 202 PHYSICAL EDUCATION

Required of all Sophomores. Year Course. Credit: 2 semester hours.

WOMEN: Beginner's Tap. Square Dancing, Advanced Tap, Advanced Basketball, Folk Dancing, Modern Dance. Course fee: First semester, \$2.50. Second semester, \$2.00.

MEN: Stunts, Tumbling, and Pyramids, Advanced Basketball, Track and Field. Course fee, Second semester \$3.50.

P. E. 301 - 302 PHYSICAL EDUCATION ACTIVITY

Required of men and women majors in Physical Education. This course includes Beginner's Tennis, Stunts, Tumbling, and Pyramids, Intermediate Tennis. Year course. Credit: 2 semester hours. Course fee, \$2.50 per semester.

P. E. 119 - HISTORY AND PRINCIPLES OF PHYSICAL EDUCATION

This course deals with the background, and the history of Physical Education from its earliest beginning up to the present. The philosophy and principles underlying the functional organization and administration of Physical Education is also presented. 1 semester. Credit: 3 semester hours.

P. E. 311 - 312 THEORY OF COACHING AND OFFICIATING (Men)

Theory, practice and teaching procedures in coaching and officiating of football, basketball, and baseball. Year course. Credit: 6 semester hours.

P. E. 314 - 315 TECHNIQUES OF TEAM SPORTS FOR WOMEN

A comprehensive analysis of the basic technique sports (team) for women and specific methods for presentation in teaching situations. Year course. Credit: 6 semester hours.

ED. 320 METHODS AND MATERIALS OF PHYSICAL EDUCATION

A study of the play activity of children in grades 1 through 8 as it relates to their growth and development. Special emphasis is placed upon the selection of play materials and the methods of presenting these materials. 1 semester. Credit: 3 semester hours.

P. E. 412 ORGANIZATION AND ADMINISTRATION OF HEALTH AND PHYSICAL EDUCATION PROGRAMS

Problems and procedures in health and physical education, organization of programs, classification of students, class schedules, finance facilities, equipment, intramurals, and interscholastic athletics. 1 semester. Credit: 3 semester hours.

P. E. 363 SPECIAL METHODS EDUCATION

The application of general education methods and the special methods of physical education to the various activities in the field. Study of lesson planning for the various groups is made based upon study of the aims and objectives of physical education. 1 semester. Credit: 2 semester hours.

P. E. 401-402 PHYSICAL EDUCATION ACTIVITY

Required of men and women majors. This course includes Advanced Tennis, Social Dancing, Square Dancing, Paddle Tennis, Badminton. Year course. Credit: 2 semester hours. Course for: \$4.00 per semester.

P. E. 411 COMMUNITY RECREATION

Designed primarily for physical education majors who are preparing for positions in the field of recreation. This course includes the development, administration, and community use of leisure time. Stresses the social and economic factors which have given rise to present-day movement toward education for leisure. 1 semester. Credit: 3 semester hours.

P. E. 320 THEORY OF DANCE

Lectures and discussions of the dance as an art; also, the study of body movement as an expressive medium based upon analysis of old and new dance forms. Fundamentals of teaching dance. 1 semester. Credit: 3 semester hours.

P. E. 413 PREVENTION AND TREATMENT OF INJURIES

Designed primarily to acquaint students in physical education how to take precautions in preventing athletic injuries, and how to give remedial aid if such injury occurs. 1 semester. Credit: 2 semester hours.

H. E. 321-HEALTH PROGRAMS IN SECONDARY SCHOOLS

The purpose of this course is to acquaint the students of education, teachers in service and others interested in the broad general nature of health programs in the schools. One semester. Credit: 2 semester hours.

H. E. 423 METHODS AND MATERIALS OF TEACHING HEALTH

This course is designed to acquaint prospective and in-service teachers with health instruction on both the elementary and secondary levels. The health needs of children in the home, school and the community are explored to show how they may apply in health teaching. Concrete materials are presented to aid the future teacher in planning effective health instruction. Health behavior in the teaching of health is emphasized rather than health knowledge, in the light of improved conditions in the home, school and community. One semester. Credit: 3 semester hours.

H. E. 324-MENTAL HYGIENE

The cause, prevention, and resolution of the mental conflicts which arise in the student's attempt to adjust to his environment. Makes extensive use of case materials and stresses practical school problems. 1 semester. Credit: 3 hours.

P. E. 420-INTRAMURALS

A study is made of the organization and administration of intramural activities including lectures, papers and discussions of finance, equipment, schedule and policies.

P. E. 319-CORRECTIVE PHYSICAL EDUCATION

Prepares teachers of Physical Education for the training of children with physical disabilities. Consider various forms of physical activities, and how they may be modified to meet the needs of the individual. (Prerequisite: Human Anatomy. 1 semester. Credit: 2 hours.

P. E. 416-417-SEMINAR

Discussion and analyzing the current problems in the physical education field. 2 semester. 2 hours credit.

Intramural activities are engaged in on the voluntary basis in the following activities, soccer, speedball, touch football, basketball, volleyball, badminton, ping-pong, and tennis.

DIVISION OF SCIENCE AND MATHEMATICS

The Science and Mathematics Division offers two four-year

curricula leading to the degree of Bachelor of Science in Secondary Education with majors in Mathematics or General Science. These curricula are primarily for training of prospective teachers of science and mathematics in secondary schools; and its completion qualifies them for a graduate certificate.

The curriculum leading to the degree of Bachelor of Science with a major in Biology and minor in Chemistry, is primarily designed for science-medical students. This curriculum meets the requirements for medical colleges; also, for advanced professional and graduate study.

The two-year pre-medical curriculum is designed to meet the minimum requirements for medical, dental, and pharmacy colleges.

DESCRIPTION OF COURSES

MATHEMATICS 101-102 COLLEGE MATHEMATICS:

The importance of mathematics as a vital social science is stressed in this first year course. It motivates the student by showing him clearly how each mathematical concept functions in the world around him. A considerable amount of cultural material is included. Key topics from the fields of arithmetic, algebra, trigonometry, and the analytical courses are discussed. [This course is a prerequisite for all courses in mathematics and required of all Freshmen. One year course. 3 semester hours per semester.]

MATHEMATICS 201 COLLEGE ALGEBRA:

A thorough review of the fundamentals of elementary Algebra. A rigorous treatment of topics such as fractions, exponents, linear equations, determinants, quadratics, graphs, arithmetic regressions, complex numbers, partial fractions, binomial theorem. One semester course. 3 semester hours.

MATHEMATICS 202-PLANE TRIGONOMETRY:

In this course emphasis is placed upon practical application of plane trigonometry to engineering, physics, navigation and mechanics. The solution of the right and oblique triangles by usage of trigonometric functions is stressed. The theory and use of logarithms is presented. One semester course. 3 semester hours.

MATHEMATICS 211-BATHEMATICAL STATISTICS:

This course is designed to increase facility in solving problems associated with topics in education, sociology, business and biology. Probability, theory of grades, genes and quantitative characters. Mendel's law of heredity, secular traits, and business forecasting are among the topics to be discussed. One semester course. 3 semester hours.

MATHEMATICS 312-THEORY OF EQUATIONS:

A study of the solutions of cubic and quartic equations, elementary theorems on the roots of an equation, symmetric functions, solutions of numerical equations and theorems on Determinants. One semester course. 3 semester hours.

MATHEMATICS 212-213 ANALYTIC GEOMETRY AND CALCULUS:

A study of the straight line, locus problems, transformations of coordinates, conic sections and quadric surfaces combined with a study of the fundamental notions of differentials

and integral Calculus including applications to Geometry, Physics and Mechanics. One year course. 4 semester hours per semester.

MATHEMATICS 401-ADVANCED CALCULUS:

A study of the development of the fundamentals of differentiation and integration. Further treatment is given to the more advanced topics of integration. A study of the Taylor and McLaurin Series and an introduction to the study of differential equations. One semester course. 4 semester hours.

MATHEMATICS 403-DIFFERENTIAL EQUATIONS:

The integrations of ordinary and partial differential equations of the first and higher degree and order. Emphasis is placed upon geometrical interpretations, with many applications to geometry, physics and mechanics. One semester course. 3 semester hours.

MATHEMATICS 405-406-SEMINAR:

A course for seniors only. It is planned primarily as a review of the field of mathematics to assist the seniors in carrying on independent study and senior projects and to encourage research to prepare students for graduate work. One semester course. 2 semester hours.

MATHEMATICS 402-COLLEGE GEOMETRY:

Modern Geometry for prospective teachers wishing to broaden their view of the nature of high school geometry. One semester course. 3 semester hours.

NOTE: Students preparing for medical school will take electives in Science and Mathematics instead of Education; i. e., curriculum, special methods, Internship, Foundation of Education. These students will receive the Bachelor of Science Degree with a Liberal Arts major in Chemistry or Biology. The two-year-premedical Curriculum is the same as the science education with electives in science.

SCIENCE

BIOLOGY DEPARTMENT

DESCRIPTION OF COURSES

SCIENCE 111-112 BIOLOGICAL SCIENCE:

A general comprehensive course designed for every college student in the freshman year. A course dealing with the general aspects of physiology, morphology and anatomy of living organisms with emphasis on man. It is designed to introduce the student to the economical, social, pathological and ecological conditions as they pertain to human welfare together with the principles underlying natural resources and conservation. Course. Credit: 3 semester hours; with Laboratory 4 semester hours. Laboratory fee \$6.00 per semester.

SCIENCE 320-ZOOLOGY:

This course introduces the various animal phyla emphasizing structural, functional and anatomical development as well

as the phylogenic and evolutionary patterns as they exist among the vertebrates and prechordates. Laboratory fee \$8.00. Prerequisite: Biological Science 111-112. One Semester 4 semester hours.

SCIENCE 221-BOTANY:

A basic course introducing the student to the plant kingdom with a general approach to the four major plant phyla as to structure, physiology and the vital processes as manifested in the various classes and orders of organisms comprising the phyla. Attention is specifically directed to the spermatophyte group. Laboratory fee \$8.00. Prerequisite: Biological Science 111-112. One semester course. 4 semester hours.

SCIENCE 231-FIELD BIOLOGY:

A course dealing with the identification, interrelationships and taxonomy of the plants and animals comprising the local flora and fauna of the immediate environment. Prerequisite: Biological Science 111-112 and Biology 221. Laboratory fee \$8.00. One semester course, 4 semester hours.

SCIENCE 224-GENETICS:

This course is designed to give the student a basic understanding of the modes of inheritance among organisms of the plant and animal groups with special attention directed on man involving the nature of the germ cell formation and gene action through embryological manifestations and eugenics. Laboratory fee \$6.00; *Drosophila* and Maize principle laboratory materials. Prerequisites: Biological Science 111-112 and Biology, 221. One semester course. 4 semester hours.

SCIENCE 222-HUMAN ANATOMY AND PHYSIOLOGY:

A course dealing with the complete and detailed structure of the human systems and the functional relationship thereof; treating each system as a unit then, as a coordinating and integrating part of the entire body plan. The evolutionary man is discussed on the basis of the present classification of the various types of individuals. Prerequisites: Bio. Sc. 111-112-113 and Biology 221 or 221a. One semester course. 3 semester hours.

SCIENCE 331 - ENTOMOLOGY:

A course designed to give the student a thorough knowledge of the harmful and beneficial insects and their ecological importance to man. Taxonomy and identification with their techniques are employed in the course: Laboratory fee \$5.00—Field Study. Prerequisites: Bio. Sc. 111-112-112; Biology 21a. One semester course. 4 semester hours.

SCIENCE 32-BACTERIOLOGY:

The distribution, identification, classification, morphology and pathology of bacteria are emphasized. Culture preparation and bacteriological analysis and technique and portions of the laboratory work. Pathogenic and non-pathogenic strains are considered in the light of human welfare. Prerequisite: Bio. Sc. 111-112; Biology 221. Laboratory fee \$10.00. One semester course. 4 semester hours.

SCIENCE 422-HISTOLOGY AND MICROSCOPICAL TECHNIQUE:

A course emphasizing the micro-anatomy of animal tissues and the preparation and procedures involving slide making. Attention is given to the various technical and mechanical manipulations of the microscope which is the basic instrument used in the course. Laboratory fee \$10.00. Prerequisites: Bio. Sc. 111-112; Biology 221 and 312. One semester course. 4 semester hours.

SCIENCE 211-212-COMPARATIVE VERTEBRATE ANATOMY:

A course stressing the origin structure, and evolution of vertebrates and prevertebrates through the skill of dissections and analysis employing the techniques of homology. Prerequisites: Bio. Sc. 111-112-112; Biology. One year course. Laboratory fee \$10.00.

SCIENCE 405-406-SCIENCE SEMINAR:

A meeting designed primarily for Science majors and with discussions of assigned topics of contemporaneous problems as well as present trends and recent achievement and discoveries. Familiarity and review of literature constitute a phase of the work. Course (one year). One semester hour per semester. Attendance required of all seniors.

SCIENCE 325-VERTEBRATE EMBRYOLOGY

A course treating in detail the complexities of embryonic development from the germ cell and gametogenesis to the mature individual involving structural patterns, morphological and cellular differentiation. Organogenesis as well as mosaics and embryonic fields are emphasized. Laboratory fee \$10.00. Prerequisites: Bio. Sci. 111-112-231;

211-212. Course

\$10.00 Credit 4 semester hours.

CHEMISTRY DEPARTMENT**SCIENCE 205-206-GENERAL CHEMISTRY**

This course includes a detailed study of chemical principles.

Thorough study is made of the common non-metallic elements, their preparation, properties, and important compounds. The fundamental laws of chemistry are studied and laboratory work illustrating these laws is included. A systematic procedure for the detection of the common anions is included. It involves also a systematic study of metallic elements, their preparation, properties, and uses. (Two semester course. Credit: 8 semester hours. Laboratory fee \$8.00 per semester.

SCIENCE 233-INTRODUCTORY ORGANIC CHEMISTRY

Important classes of organic compounds are studied, both aliphatic and aromatic. Emphasis is placed upon the study of hydrocarbons and their principal derivatives, carbohydrates, proteins, fats and oils, vitamins, and dyes, with certain biochemical application. Three (3) lectures and two (2) three-hour laboratory periods. Designed for medical requirement under Science Education and Home Economics. Laboratory fee \$10.00 per semester. One semester course. 4 semester hours.

SCIENCE 411-412-ORGANIC CHEMISTRY

This course involves a study of the preparation, properties, reactions and uses of compounds of carbon. Integrated discussions of industrial development in organized chemistry will be included. Laboratory fee \$10.00 per semester. One year course. 4 semester hours per semester.

SCIENCE 301-302 ANALYTICAL CHEMISTRY

This course includes theories and laboratory practice in both qualitative and quantitative analysis. The qualitative analysis part of the course deals with the analysis of the several groups of cations and anions. The quantitative analysis part **includes both volumetric and gravimetric analysis**, together with related stoichiometric problems. Two lectures and two 2-hour laboratory periods per week. Prerequisites: Mathematics 101-102 and Science 201. Laboratory fee \$8.00 per semester. One year course. 4 semester hours per semester.

SCIENCE 420-BIOCHEMISTRY

This course includes the study of chemistry of carbohydrates, fats, proteins, and vitamins in respect to sources of chemical nature and reactions. The study of digestion and metabolism of the essential foods and their products. Two lectures and two 3-hour laboratory periods. Prerequisites: **General Biology** and one year of Organic Chemistry. Laboratory fee \$10.00 per semester. 4 semester hours.

SCIENCE 425-ELEMENTARY PHYSICAL CHEMISTRY

This is an introductory course for pre-medical and chemistry majors. Special attention is given to the application of chemical principles to medicine. The fundamental laws of reactions and the modern theories of chemistry are the bases for this course. Prerequisites: Analytical Chemistry and Physics. Laboratory fee \$8.00 per semester. 4 semester hours.

PHYSICS DEPARTMENT**SCIENCE 201-202 PHYSICAL SCIENCE**

This is a comprehensive course devoted to the study of the fundamental principles in each of the following areas: physics, chemistry, meteorology, geology and astronomy. Throughout the course emphasis is placed in the unity of the physical sciences as a field of knowledge rather than as separate and distinct branches. Practical applications of basic principles are noted and demonstrated. It is required of all sophomores. Materials fee \$2.00 per semester. One year course. 3 semester hours per semester.

SCIENCE 401-402 GENERAL COLLEGE PHYSICS

This course will include mechanics of solids and liquids, heat, sound, light, and electricity. While high school physics and trigonometry are desirable prerequisites, students who are familiar with science and have excellent records in mathematics may be accepted. Laboratory fee \$7.50 per semester. One year course. 4 semester hours per semester.

* Part of page 64 with reference to GRADUATION that reads
Cap and Gown Fee, \$3.00, should read \$7.00; and Special Fee,
\$2.00, should read \$3.00 — Thus:

Diploma Fee	\$10.00
Cap and Gown Fee	7.00
Special Fee	3.00
Total	\$20.00
